MAEjL AND HER GUIDE.

It was six in the morning as little Mabel Grant set out in the cottage for the Collegeville Hotel. She was alone, only a little maid in her bed, and the sound of the cooking in the neighboring house was so loud that she could hardly hear it. The sun shone through the window, warming her face, and the smell of the breakfast wafted through the room.

Mabel had just turned over in her bed when she heard a knock at the door. She got up and opened it, and there stood her guide, a tall, thin man with a kindly face.

"Good morning, Mabel," said the guide. "Are you ready to go?"

"Yes," replied Mabel, "I am ready."

The guide took her arm and led her down the piazza, and they stopped at the entrance to the hotel.

"Let us go in," said the guide. "I will show you your room."

They entered the hotel, and Mabel was struck with the beauty of the place. The ceiling was high and the walls were covered with paneling. A fire was burning in the fireplace, and the room was filled with a sweet fragrance.

"This is your room," said the guide. "It is very nice, isn't it?"

Mabel looked around and nodded her head. She was very pleased with the room, and she thanked the guide for his kindness.

"You are welcome," said the guide. "I hope you will like it."

Mabel said good morning to the other guests and went to her room. She took off her dress and went to bed, feeling very happy and contented.

The next morning Mabel woke up early and went down to breakfast. She was very surprised to see that the guide was waiting for her in the dining room.

"Good morning, Mabel," said the guide. "Are you ready to go?"

"Yes," replied Mabel, "I am ready."

The guide took her arm and led her down the street, and they stopped at the entrance to the hotel.

"Let us go in," said the guide. "I will show you your room."

They entered the hotel, and Mabel was struck with the beauty of the place. The ceiling was high and the walls were covered with paneling. A fire was burning in the fireplace, and the room was filled with a sweet fragrance.

STEAM ••• HEATING!

The supremacy of steam in competition with the old methods of heating cannot be questioned, for twice as much heat can be obtained from the same amount of fuel as could be obtained by the old way of stove heating. Yet another important consideration is that the control of steam, from the moment of being turned on till the last, can be sent to a portion of the room instead of filling all the space in the house. Steam heating has come to stay. Do you wish to secure this modern comfort?

If you do, you are heading directly toward our line of business, and we want your business. You must talk to us; you are just what you want, guarantee you satisfaction, and give you full worth of our service. We have placed a majority of Steam Heaters in every instance our work has proved satisfactory. Call or write us.
