The Work of the Rain-Drop.

As early scientist of geologic laws, the author of the last communication, has repeatedly shown, the rain-drop is the most powerful and comprehensive of all agents of erosion, and that the cumulative action of even the smallest drops is an agency of almost incalculable importance. The work of the rain-drop is, in some respects, more important than the action of the wave in the ocean, and it is calculated that, in the case of the latter, the water contained in the drops is much more effective than that contained in the waves. The force of the rain-drop is increased by the direct contact of the water with the earth, and by the fact that it is not subject to the action of the wind, as are the waves. The rain-drop is, in fact, the most effective agent of erosion, and the most important factor in the formation of mountains and valleys.

The importance of planting and proper care has been emphasized and the need for early selection of plants is being stressed. The location of the planting site is critical, as is the selection of the plants themselves. The planting process should be carried out with care and attention to detail to ensure the best possible outcome.

In conclusion, the success of the planting project depends on the careful selection of the plants, proper care and attention to detail. By following these guidelines, the chances of success are greatly increased.

The end result will be a beautiful and functional landscape that will enhance the beauty and value of the property for years to come.
FROM PROVIDENCE SQUARE.

The two daughters of Mr. and Mrs. J. E. Boon, who came to her assistance, was also present. The coroner, D. D. G. M., of Lower Providence, and D. Drace Freyer, of West Norristown, were present. The coroner held the inquest, and W. J. Mauger, of Lower Providence, was the undertaker. Undertaker W. J. Mauger, of Lower Providence, was the undertaker.

Our facilities for executing JOB WORK are such as to enable us to do strictly first-class work promptly and at reasonable prices. The Job Work done at the Independent Office favorably compares with that done anywhere in the county. Favor us with your orders and we will do our best to serve you well.

If you have anything to sell and want to sell it, and if you want your neighbors and the rest of mankind to know that you have something to sell and want to sell it—no matter what it is—we will ADVERTISE IN THE COLUMN OF THE INDEPENDENT—the best advertising medium in the middle section of Montgomery Co. Wherever the Independent circulates it is eagerly scanned by interested readers. It is read by at least 3500 people every week, and its circulation is steadily increasing.

Subscribe for the PROVIDENCE INDEPENDENT, 55c per annum, in advance. You will get the worth of your money and more or less happiness into the bargain by subscribing and paying for the INDEPENDENT; the paper that has opinions of its own, and will say what it has to say without fear or favor.

Do not believe the story that the bank is nearing the stage that the Independent does. Every quest of information regarding the Independent, and every inquiry regarding the Independent in a most astronomic manner, that is the Independent. In the Independent, there is no organization of the Independent, in our firm of Independent, is.
