PHILADELPHIA.—Rev. J. K. Henderson, of the Presbyterian Church, Collegeville, was recently appointed to the Chair of College, Philadelphia. The position was vacated by the resignation of Rev. W. H. Smith, who was advanced to the pastorate of the Second Presbyterian Church, West Philadelphia.

THE ROAD QUESTION SETTLED AT THE
HAY MARKET, PHILADELPHIA:

The road question is settled at the Hay Market, Philadelphia, where a general meeting was held on Tuesday evening, May 9, 1874, to settle the question of the road from Philadelphia to Trenton. The meeting was called to order at 7 o'clock, and a large number of citizens were present.

The meeting was opened by the reading of the minutes of the previous meeting, and the adoption of the report of the committee on the road question. The committee had made a report recommending the construction of a new road from Philadelphia to Trenton, and the adoption of the report by the meeting was unanimously decided.

The meeting then proceeded to consider the question of the road from Philadelphia to Trenton, and after a full discussion, the following resolution was adopted:

Resolved, That the question of the road from Philadelphia to Trenton be referred to a committee of three, consisting of Messrs. A. J. Barrow, Rector, and Messrs. J. W. Barry and J. W. Kelly, to make a full investigation of the question, and to report the results of their investigations at the next meeting.

The meeting then adjourned.

DO YOU NEED A LEAF?
SLATEFUL OF FIGURES
TO PROVE THAT
RELIABLE CLOTHING PAYS?

If you can by any possible get the meanest work out of your poor old clothing it’s a bad investment and brings a disastrous result—enought to make a man ashamed of himself. There’s a ring of difference between mail order clothing! Put some along side that order and you will see it for yourselves. A mail order clothing business is a sham and every mail order catalog is a fraud and an insult to your intelligence. It is trying to supply every deficiency without the knowledge of the consumer, and make you compete for the smallest amount of business. We don’t care for that kind of business. We are not attempting to prove to you that mail order clothes are not worth the money you pay for them. You can see for yourself how much you have to pay for them. Our object is to show you how much more you can now earn by making your own clothes, and how much more you can save by doing your own repairs at home. By doing so you will save the trouble of going to the tailor, the waste of time, and the risk of losing your money. We have done the work of the tailor, and done it better and for less money. We offer you a clothing business of your own on terms you can’t afford to refuse. You will find it worth your while to study this offer, and to examine the clothing business. For full particulars apply to

STEAM :: HEATING !

The superiority of STEAM in comparison with the OLD METHODS of HEATING cannot be questioned, for twice as much heat can be obtained from the steel pipe and iron as can be had from the old way of heating. There is a difference in consideration that all the dust and dirt, tendency to carry cold, and the deposit of lime is entirely overcome. Steam heating is the most thorough and efficient way of heating a house. Steam heating is the most thorough and efficient way of heating a house.
