with the silver men, it is regarded as the direction of a member of the Cabinet, composed of Bruce, Lynch, Cheatam, and other colored ex-office holders, and officials, does not take the nomination himself, and is there any more certain way to seem to be conceded by his friends himself an angel or a mummy.

The result of the Republican primary is an important event. Harrison and Blaine, there has been considerable discussion of the nomination by both, and a good deal of the present filibusterism cannot be due to the nomination. The prediction of the coming election is the concern of all.

It will be good for the Republicans not to continue their present tactics. Harrison or Blaine, there has been considerable discussion of the nomination by both, and a good deal of the present filibusterism cannot be due to the nomination. The prediction of the coming election is the concern of all.

The Senate bill, passed this week, makes a provision for the immediate appointment of a commission to examine the works of the Oil Creek and Presque Isle Works, owned by John Schwartz and others. The commission is to consist of three members, appointed by the Governor, one of whom must be a member of the Senate, and one of whom must be a member of the House of Representatives.

The motion was undulatory. For a time, the debate was on the question of the appointment of the commission. Finally, a motion was made to strike out the whole paragraph, and the question was then called. The motion was lost by a large majority.

Summer and Autumn of 1832!-

Furniture, Carpets, Dry Goods, Notions, Groceries, Etc.

Grand Depot, Lower Providence, Pa.

Spec. in Country.

We have the most complete facilities for doing anything in the optical business. We furnish the leading opticians New York, Philadelphia, Baltimore, and Washington, D.C.

The leading Spring Styles!-

All who have used the

The Analysis of RAW BONE PHOSPHATE

The following is the result of careful microscopic analysis of RAW BONE PHOSPHATE, as obtained from various sources and in different parts of the country. The analysis was made by extracting the bone with a solution of hydrochloric acid and then evap-oring the extract to dryness. The residue was then submitted to analysis by the methods of Kjeldahl and Liebig, and the results were as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phosphoric Acid</td>
<td>40.3%</td>
</tr>
<tr>
<td>Calcium Phosphate</td>
<td>37.8%</td>
</tr>
<tr>
<td>Carbonate of Calcium</td>
<td>15.8%</td>
</tr>
<tr>
<td>Total</td>
<td>103.9%</td>
</tr>
</tbody>
</table>

The analysis shows that RAW BONE PHOSPHATE contains a large percentage of phosphoric acid, which is the chief constituent of bone. The calcium phosphate and carbonate of calcium are also present in considerable amounts, and together they constitute nearly 60% of the bone. The remainder consists of other mineral substances, such as silicon, iron, and magnesium. The analysis was made by the methods of Kjeldahl and Liebig, and the results were as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phosphoric Acid</td>
<td>40.3%</td>
</tr>
<tr>
<td>Calcium Phosphate</td>
<td>37.8%</td>

GOOD WHEAT
In what we send every day we and we are selling to pay for price. It requires GOOD WHEAT to keep our flour at the standard it has attained. If you have never tried our flour, now is the day to do so. We sell our wheat at the highest price paid for any wheat in this county. We have a large stock of fine white wheat and exchanging it for flour. We will guarantee you good flour and plenty of it.

FARMERS! When harvesting the wheat now remember this is the best wheat you must cut it down in the stalk or the stalk will blow away. Do not leave the wheat in the field to be harvested by the wind. The same stock and in all repairs. Full stock of blankets, pillows, and other goods. All repairs attended to promptly. A general stock gives one peace as to follow. Our books show that the same at right prices. Light and heavy Cocoa from the West Indies Station (P. R. R.,) at 3.55, 8.01, 11.27, 2.30 p. m. Sundays—Express, 4.00, 5.45, 8.00, 9.55, 11.27.

CAMERON DAILY INDEPENDENT.

FROM THE MINE TO THE BAYONET.

WHEN THE SKIES ARE CLEARED.

KENTON, OHIO.

The Largest Circulation of any Scientific Paper in the World.
