Staff Needs Help

There has been a recent tendency to deplore the absence of students who have left for jobs, that is, for games in the paper because no one else was available. With the increase in the enrollment of the college, there are many students who are willing to support the sports staff. During the war girls took over the responsibility of writing these articles, but now they are willing to re- luminary of U.S. Steel, plans to return to Penn Morlok, son of Mr. and Mrs. William F. Morlok, charged from the Navy, plans to return to Penn. There are many such students with the same attitude, who know more about games such as baseball.

A blank sports page would probably cause quite a few students to stop reading the paper, but the result of the responsibility of so much continues to be placed upon fewer.
