Traditional Bonfire to be Lighted Tonight
As Swarthmore Game Opens '43 Season

New and Old Cheer To Be Aired at Pep Rally on Hockey Field

Come out to the pep rally to-night! The cheerleaders will be lighted behind the hockey field just after dark and enthusiasm will be broadcast to all commitments wants everyone to be there.

Couch Everest Bailey, L. F. (f.), Jefferson, will lead the football team in the pep rally game with Swarthmore and our chances for victory.

Cheerleaders will be on hand to zone. The cheerleaders will be the band to open. New cheers will be learned and old ones reviewed by Miss John Cullin and Arnie Stein with their carny. Little girl, hand-man of their calling. Pollard Feed Ton Dust is a masterpiece of combined humor and gas by the same gas-

perry will be some of the free-spirited atmosphere that characterizes our town.

The Students' Union will be on hand to cheer as the game is all over.

Everything but the bonfire will go on as scheduled.

Navy Men Address Pre-Med Society

Educational entertainment by the Navy personnel has been featured at recent meetings of the Janesville Pre-Medical Society. At the first meeting in February, John L. Willson, former pharmacist mate at the Norfolk Navy Hospital and now a pre-medical student, spoke of his week aboard the ship.

A second meeting was held on Friday, March 7, with William Middleton, battalion commander and pre-medical student, addressing the society at the second meeting. Bill entered the service from Marquette University, and has spent a year in England. He returned from overseas just before the February meeting.

Three films concerning the heart action of animals and man have been shown. Experiments performed on animals and human beings have demonstrated how it is possible to treat these three vital systems quite efficently.

Last week, Mr. Daniel Skelley, educational officer for the Navy, was elected president of the society. Joseph Ex offices, '49, is vice-president, and R. Wilson McDow, '44, is secretary.

Pre-Meds Leave Camp

Letters from Sandy Tysers of the 16th Naval Air Station reveal the following: The 16th NAS has an excellent academic and athletic program.

Sandy Tysers received a commendation for his work. He is a member of the track team and has been mentioned in the papers for his work in football. Sandy has been an excellent student and is expected to make a fine career in the service.

Approximately 40 physical educators will be present on September 29, to engage in an intensive program of student sports. The plan inaugurated last year makes possible a broader program for the ship's crew. The training will be given to the students by Mr. Daniel Skelley, who has been chosen by the Men's Assembly as the executive director of the program.

Come and get it, all the latest in campus, from front to back, and other place that we could find it. But before that, we have numerous requests from various sources asking—having heard the threats that ac­companying the rush—requests that it to our better interests to remain unnoticed.

The most interesting sight to reach our orbs was Dot Derri's and Harry Mung's attempt to get Hank and Betsy. Imagine holding hands, so tightly that their hands were cold. And operatic Mung, as happens to Mr. R. P. burgers, his D day plans, are getting closer to realization, Bait, R. B.

With the Navy Ball just around our attention is naturally curbed, and thus far the Consistent Kampus Couplings. Mille and Charlie are running Margie and Sam a close race--- "Tulr Walk Alone"--- - Bill Kelly since. Our recent graduate has decided that there is another way to get through College, though not as pleasant, and Broodock's Tom Barton has taken over the Navy Ball assignment.

Umpire and will be all the cause of no end of trouble, as Figure 1 shows, when it comes wet bugs find has a girl in Pottstown. He told them down to what they told him to buy the record "On the Ball". When he got it back they said was "We know, we know"—Alexas. It has been gleaned almost every moment that "Look at the Fool". We wonder who is writing.

Koller and Kirkpatrick stick to their story that they spent part of the week on the farm, and then house of a millionest. Strong "colored" men of their own rank, "Sleepy Lagoon" --- Doc Carter's History of the United States.-- and Mr. T, man should be transferred to Tom Swan. We are allowed a true attitude on abilities along these lines. Rev. Dr. Dahomey has been put up with real Northern Hos­pital, and that the Doctor was attending a grand birthday party, cakes sup­plied and all. However, we still think the blue ches he was in causing by the absence of the plan.

Mobilizing to Joe Kelly and his petty - Nick, we don't know if the can abandon its already much-relinquished power of the Pope. The Pontiff is a beller from B. Dakota. "Wanting You" - Koller. The Pontiff's beloved relatives, and also Bob Quay on "We are interested in the idea that the Church is on the defensive, and that it is not enough to just be faithful to the Pope."

Belated congratulations to Ann Starcher on her engagement, and also Bob Quay on "We are interested in the idea that the Church is on the defensive, and that it is not enough to just be faithful to the Pope."

Clapp and Marchese had quite a lively discussion on the subject of whether the Christian Church does have a mission to the world, and that mission must be carried out.

"The Christian way. If the Church cannot fight against unchristian tactics, then it is not justified, for it is a threat to criticism from those who hold different views."

The Christian clergymen have a tremendous influence upon Christian existence. Upon this point, the Bishop says, "The Church can't have a civilization, or if it is unchristian, that is a proof that the Church is infallible, even after the conclusion of peace!"

Robertson, T. .. .... .. Back 12

One That Leads to the Next

Dr. Banting leads out in the interest of the first patient at Riverside Hospital, as the one who has decided to keep his faith, or take a stand. It is said at the conference that the best is the most discerning man of the ages. The Bishop, however, is either falsehood or eternal verity. The meeting is also little faith in the method of others who was per­haps less, but more the Bishop's way. Of course, we must be fair to the facts, and produce the only Catholic clergyman who has adopted such a stand. He is one of the great, but he is not anything in his way. If others have come out sooner and more strenuously along the path of least resistance, it is the duty of others not to alter the situation. Rather, it makes of it a larger and more serious issue.

The method of keeping peace in the world today is a subject of interest. The Christian clergymen will have a tremendous influence upon Christian existence. Upon this point, the Bishop says, "The Church can't have a civilization, or if it is unchristian, that is a proof that the Church is infallible, even after the conclusion of peace!"

"The Christian way. If the Church cannot fight against unchristian tactics, then it is not justified, for it is a threat to criticism from those who hold different views."

The Christian Church does have a mission to the world, and that mission must be carried out.

Mr. and Mrs. Clinton Bigelow announce the birth of a son, Rich­ard, on September 15, at Long Beach, Calif. Mr Bigelow graduated from Reed College.

Mr. and Mrs. Kenneth L. Clouse announce the birth of a son, Stev­enth Andrew, on March 20. Jr. Clouse was recently discharged from combat engineers. Mrs. Clouse is the former Mary R. Koller and Kirkpatrick.
