Mr. Fisk. "I just slid into the refrigerator. I wandered into the attic for something and somehow got into the kitchen."

Mrs. Fisk. "Perhaps you were looking for something in the corner cabinet and you got carried away."

Mr. Fisk. "This is exactly what happened."

Mrs. Fisk. "I'm not going to argue with you about it."

Mr. Fisk. "We still have a long way to go."

Mrs. Fisk. "I know, but we can't let this stop us."

Mr. Fisk. "We'll get there eventually."

Mrs. Fisk. "I hope so."

Mr. Fisk. "I'm telling you, it's just a matter of time."

Mrs. Fisk. "You always say that."

Mr. Fisk. "I know. But this time it's going to be different."

Mrs. Fisk. "How do you know?"

Mr. Fisk. "I just do."

Mrs. Fisk. "Well, I hope you're right."

Mr. Fisk. "I am."

Mrs. Fisk. "Then I'll be waiting for you to come back."

Mr. Fisk. "I will."

Mrs. Fisk. "I love you."

Mr. Fisk. "I love you too."

Mrs. Fisk. "Goodnight."

Mr. Fisk. "Goodnight."

(They both kiss and hug.)
Carried during the year were 581,183 miles. The number of passengers last year, including locomotives and cars, was 1,537,245. According to this report we now have 168,403 miles of railway statistics. According to this, it seems to have passed. Out of the total, 100 square miles of land is covered by ice.

HORSE FOOD.

Dr. Theel.

It has long been said that the result of the thorough and proper feeding of horses will not only improve their condition, but not at the same time that they will have a steady and healthy habit. This is a saying that the best breed of horses can be maintained by proper feeding, and that all horses can be kept in the best possible condition by proper feeding of the best breed of horses.
