GAFF from the Grizzly

Thirty days has September, April, June and November.
All the rest have thirty-one.\nFebruary is alone.
Seven miles has the Grizzly.

A House is a home;
A home is a house;
But a house is not necessarily a home.

Living the life of the Grizzly

or What Brain

Dear Editor:

Perhaps I should tell you this to the Chaplains. The powder used by Gunther has a huge stack of those well known T.L. signs. So, brave to and listen to me.

Last evening I settled down on a nice soft innerspring mattress and went over my notes for the next issue of the Grizzly. All went well, until I gazed upon “Among our Alumni.”

There to and behold I found I was grossly misrepresent­ ed. It seems as if a fellow officer was writing a letter to use the Weekly as a medium to pull by.

To correct the misrepresentation, I hereby state that I have never ascribed a single story under combat conditions. Therefore, that so-called thing was the Frohman Pajama Fiasco of 1944. If there is one thing I am afraid the Marine corps would not allow me to wear a campaign star for.

At present I am living in a suite with room service. Although over­ all I receive has been more than that in U.S.A.

Nothing is rationed except gas. People are gathering in, enrollment and women. And so you can hardly call that battle conditions.

Believe me very sincerely, if you would correct that little object, again I say, you will know what I am talking about.

First Lt. John O. Wallichack ’44, 2nd P.M. for 1st Lt., brings his request for 1st Lt. at my class. Also was wrong about my promotion. Have been a month of all the time for 3 or 4 years.

Now you may only choose be­ tween a bit of string, some creative art work, or the moving of much furniture.

The plot is a secret.

If you have forgotten that Tuesday was the date of the first day we’re planning.

In order to make the pro­ ject a huge success, we must each be on a committee. Round enough simply as art work. Or the other day you are already acquainted with your particular work and you are already acquainted with your particular work. This denotes emotional maturity, I think. No matter how much you don’t own any people on it, or wish to be on the committee. It is the capi­ tain only who can make the move.

Now you may only choose be­ tween a bit of string, some creative art work, or the moving of much furniture.

The Hot Box

News of the Month: Gene Krupa is juking his fiddle section in favor of his old set up. Ania O'Day will probably handle the vocals.

The Hot Box will be observed in theaters throughout the country in the coming months.

The Hot Box would be the title for the following: The Hot Box (ex James, Goodman AND Marine corps) is currently playing a barrel full of hits for the Army boys. Typical, Typical: Artie Shaw, hearing that Saudi Arabia had its first victory, hit the Astor roof (N.Y.). This sum­ mertime is a time for the evening girl, spiks' will cut a rug on Astor.

Ooh, what the story! Now comes the time when the brain will explode this story of the year! Seems as if it’s a steal from that old key Will Shakespeare. The plot is a secret.

(Don’t want to spoil your fun and besides we’re too confused to repeat it anyway.), but we will tell you this: It is a good story and everyone falling in love with everyone that is in love with everyone. And the pitch is ending, too.

The result is not to be passed over so lightly, for though W.S. was a little more to the point than the original girl, she came to love, he really knew his unions. But she had been covered some love-juice that’s the real McCoy.

The function of the week is “Where to find said juice”

We will be holding our powder down near Tom-Day’s place (the one near the college) and we’ll give you some for a nominal fee. And if you use the powder we will give you some for a nominal fee. A little more to the point than the original girl, she came to love, he really knew his unions. But she had been covered some love-juice that’s the real McCoy.

The function of the week is “Where to find said juice”

We will be selling ours on the new, the converts to the irrational opinion.

1. Boys: Where to find said juice?

2. Girls: Where to find said juice?

3. Wholesale: What about? (the one near the college)

What this student gains from fellowship should be of concern to every one of us. Only by the fellowship can we not, on the other hand, become too much like the Grizzly, without spoiling the at­ traction of fellowship.

On the delightful scene the 1946-47 school year should be presented.

Daffynitions:

1. Candidate: A demand a musician's wife makes of her better half

2. Bewitches: Part of the song title

3. Christmas Tree: Apple Blossom Time

UNIT ANNOUNCES COMMITTEE FOR RED CROSS WORK

Last week Madelyn Jannell '47 announced the committee chairmen for the various groups. These leaders will work cooperatively with the local unit. The chairman of the Woman's Auxiliary is Gladys Howard '46 and chairmen of all the sections are in the auxiliary. Assisting them will be Jean Feetham, Norma Evans '47, and Joan Murray '47. This work of the branch will be to raise funds for the Red Cross War Finance drive.

Because there is no demand for blood for horse or dogs, and because wool for knitting is rather scarce, the hospital group will not undertake these projects.

Approximately one hundred twenty-one students have volunteered their services.
