Hudson Stresses Christian Division From Rest of World

Brotherhood Plans Program With Grant Hrally Leader

Speaking at Vesps last night in a banquet sponsored by the intercollegiate religious or better church members, Hudson, president of Union College, called for a positive and a clear cut change in the hearts of human beings to make them want to do it. He would first make a direct appeal to the members of the audience.

"Jesus preached his simple gospel to the masses," he said, "and one by one showed them the way of a heavenly kingdom. He was not too much concerned with the places other men go. But he is different. He is not touched by a sinful man's wrong. It has been said, "No virgin birth."

Borrowing from the 1954 General Conference, he pointed out good and bad qualities of the people's lives that they had read aloud. The club will attempt to get a group of women to sing in the big meeting.

For that next turn-around, dance,

1. If at all possible, get your own dress. It will save you a little

2. Ask for your date at once. If you telephone, you may have to wait a week or more, and few women will accept a date, especially a blind one, with an announcement. If you are afraid, you may have to wait far longer. It is far better to refuse you if you cannot refuse.

3. Try a direct attack instead of being caught around the bush. He won't have time to think up an excuse if he asks you point blank whether he's taking you out.

Food for Thought

Food for Thought

A small college away from the city has many advantages for which we at Urssinus are thankful. However, there are also a few disadvantages that we may be too blind to see until we are driven to them by events from here.

In a small town we became acquainted with the students of the college and the citizens of the Little Town. The distance between them and us was bridged by a stream. We share each other's problems and each other's happiness. We try to help each other. But there is a problem common to all of us in our small college community, we often forget that the people on the other side of the stream may or may not forget that there is a war if we don't have a Navy unit on campus, for very few students will notice if events in their own homes are not reported in the newspapers.

We must remember that the other half-lives—we even forget how our near-by city lives. Too many people are blind in the face of reality. At Urssinus, many of our students live in two worlds as many. Even some of those who have been fortunate enough to get into college are still too young to face life as it will be after the war.

We need not envy the students of large cities or feel that we are isolated at Urssinus, many of our students live in two worlds as many. Even some of those who have been fortunate enough to get into college are still too young to face life as it will be after the war.

What are we fighting for?

What are we fighting for? Our common bond is the desire to establish peace throughout the world. What we fight for in this war is freedom for all people, the freedom to live and work under conditions of peace. The fight is for a world free from fear and want, where all nations are equal, and where all people have the right to live in freedom and dignity.

We are fighting for a world where there is no more war, where nations live together in harmony and cooperation. We are fighting for a world where there is no more poverty, where everyone has the opportunity to earn a living and to live a decent life. We are fighting for a world where there is no more hunger, where everyone has access to food and clothing.

We are fighting for a world where there is no more disease, where everyone has access to medical care and education. We are fighting for a world where there is no more ignorance, where everyone has the opportunity to learn and to grow.

We are fighting for a world where there is no more oppression, where everyone is treated equally and with respect. We are fighting for a world where there is no more discrimination, where everyone is treated equally regardless of their race, their religion, or their gender.

**Coeds Down Drexel In Low-Scoring Tilt On Ursinus Court**

The Ursinus ladies won an important victory over the Drexel basketball sextette. Friday afternoon on the home court, to the tune of 31-21.

Lee Phillips, Betty Kirlin, and Annette Danenhover started at forward, while in the defensive line were Captain Marion Bright, Peggie Brooks and Jeanne Mathieu. The first scoring play was from Lee in the center to Kirby. She was passed to Danny who had cut under the basket for a lay-up shot. Lee Phillips had some beautiful interceptions, and her set shots were true.

In the middle of the first quarter, Captain Bright entered into the game in Kirby's place. Started to a faster pace, the Ursinus offense tallied 5 points in the second quarter.

Court scored on an overhead shot and set shot behind the foul line, while Lee availed a long one through on the right side of the court.

Jeanne Mathieu played exceptionally well in the first half for Ursinus. Her off-the-backcourt recovery, and Peggie Brooks' tieballs and tip-offs were a pleasure to watch.

Marion Bright, captain and mainstay of the sextette had one interception after another, and at the end of the first half, Ursinus was leading, 12-9.

Drexel's Marie Elbersen scored one beautiful pivot after another, but the forward team was no match for the incredible Ursinus defense.

The third quarter found both teams in a slump. The play was slow and the passes wild. Lee tallied 3 baskets on foul shots.

Court scored, the final score for Ursinus was 31, for Drexel 10.

**from Bloemfontein to Buffalo**

In South Africa, as in the U. S. A., the greeting Have a “Coke” helps the American sailor to get along. And it helps, too, in your home when you have Coca-Cola in your icebox. Across the Seven Seas, Coca-Cola stands for the fuel that refreshes, the friendly gesture of good-natured folks.

But a profile of public libraries is a year of experience. In addition to the usual assets asked of any librarian they have an interest in soldiers' and sailors' personal problems, the patience to listen to stories of "back home," look at baby pictures, subbing sometimes for Miss Lonely Hearts.
