The Superiority of STEAM in comparison with the old-fashioned BAKING is apparent, for twice as much heat can be obtained from the same space. The heat from the stove is more gradual than from the old way of stove heating. Then another very important consideration is that all the dust and dirt, incident to burning coal, is confined to a portion of the cellar instead of floating about all the rooms in the house. Steam Heating has come to stay. Do you wish to secure its advantages?

If you do, you are bidding directly towards our line of business, and we want your orders. We can supply you with what you want, guarantee you satisfaction, and give you full weight of money in every instance our work has been satisfactory. Call or address
