Operetta Success By Victor Herbert To Be Presented

Story Centers on Adventures Of Two Comedians in Mix-up

"Charles Dillingham presents David Montgomery and Fred A. Stone in The Red Mill—a musical play in two acts by Victor Herbert and Henry Blossom." Your parents may have seen this announcement back in 1906 when this musical comedy, which will be presented here on June 10, was having its Elections To Be Held stay on the then gay and White

musicals like Hitchy-Koo and were now famous enough in a world where George M. Cohan, Lillian campus organizations will be held Russell and Sarah Bernhardt were in Freeland reception room toeither struggling upward or making immensely successful farewell tours to rate having the famous

Comedians take over for the duration and the cast really gets

As Con and Kid we'll see Robert Quay and Henry Haines and as Tina, Beverly Cloud. Gretchen and the Captain will be done by Mary Jean Moore and David Brashear, the widowed Bertha by Barbara Djorup and the Governor by Daniel Richards.

The Jenkins and Lieber team will be the Burgomaster and the Inn Keeper. Barbara Cooke speaks French as a Countess and O. D. Easterday is an Englishman. Jerry Batt will play the sheriff.

Have Energy Of Ideal Stresses Rev. Singley At Vespers Yesterday

Man attains the highest levels of character only if he fortifies himself by "energy of ideal." In these words Rev. Dewees Singley, pastor of the Mt. Herman Evangelical Reformed church in Philadelphia and father of Peggy Singley '46, began his talk at vespers yesterday.

The speaker stated that in order

to do our best we must keep the best on top continually. Ideals have energy because of their position. Rev. Singley put man in the position of trackmen who, having been trained for a long time, take their place at the end of the track ready to go. Just as in a race, our mom-ents between "get set" and "go" are very important.

In preparing for the difficult course ahead we must "get set" by acquainting our body, mind, spirit with the highest ideals that we can grasp, Rev. Singley continued. We must all "strip ourselves of every handicap." Today it is very easy times, but these thoughts handicans to our goal, he said.

Rev. Singley concluded that we should also lay aside the weight that devastating bit of pulchritude to Carl Schiding. of sin that besets us for God forgives and forgets. If all men were Supporting him in the attendants' awkward to carry about, we have Rule would be an iron law workable in every living. Colorful Pageant and Junior Miss Production Monday, May 22 Women's Debating club, 7:30 p.m. Spell Success, Good Times on Parents' Day

Appreciative Crowds Fill Gym Both Nights as Actors Give Polished Performances

by Henry K. Haines V-12

Everyone knows how good the Curtain club's presentation of Junior Miss was. Everyone was there -in fact, everyone and his mother and father. Two such packed houses are unprecedented. Friday night's crowd was more responsive than Saturday's even fuller house but could hardly have been more

The play proved to be a most wise selection for last weekend's crowds. There wasn't a really good line either night which was missed.

On stage Janet Shoemaker gave a steady, well polished portrayal of Judy and Adele Kuntz as Fuffy Adams stole some scenes and livened others with a masterly touch and an excellent conception of the role which she held throughout. Judy's apologetic scene, well-done as it was, gave us a glimpse of Miss Shoemaker's fine dramatic ability.

'Parents' Take Honors

Beverly Cloud and Robert Quay, playing true parental roles, captured acting honors for the evening. Miss Cloud's every line was well planned and Mr. Quay's ease of movement captured every eye. Their voices were entirely pleasant and their conceptions of the roles were not only excellent but memor-

Good Romantic Leads

Betty Umstad and James Fallows were well cast as an extremely good looking couple. Mr. Fallows presence of mind was especially admirable Saturday night.

Reigning as Queen Emeralda in the Land of Oz, Anita, who was attractively attired in a daintily ruffled white organdie dress trimmed

Toulouse Tells of His Life at Kodiak

"Well nothing much happened," was the casual reply of the sailor when asked to tell some of his experiences with the fleet.

Howard Toulouse from Yakima, Washington, was speaking of the days when he was stationed at a submarine base at Kodiak, Alaska. He was in the "submarine disbursing office," he stated but later changed it to "Storekeeper."

With that he launched into a description of this island in the Aleutian chain. Although action passed around it, there was no actual fighting on the island.

"Sure, I liked it a lot," he said with a smile as he described the 'city" of Kodiak, seven miles from the Navy base. The population (all of 300 people) consists principally of natives who are "pretty civilized," talking and dressing like the few white people there, civil service workers.

"It's like a typical old western mining town with mud in the street and a predominance of beer parlors and it is one of the oldest cities in North America," according to Seaman Toulouse. Most of the people fish for their living, but Both turned in good perform- Howard and the men at his base fished for recreation. His fish story is about catching a twenty pound ingly.

with pink roses, had been changed into a pine tree by the wicked witch enacted in a realistic and terrifying manner by Loughin '46.

The villagers in bright peasant costumes, led by Virginia Charles '46, and Tinker Harmer '46, as their pompous mayor and his wife, appeared while Dorothy, tired from play, was sleeping and did the traditional May Pole dance. After Dorothy awakened, the villagers described their plight and enlisted her aid in breaking the spell cast by the witch.

Effectively representing a Tin Woodman, Winifred Clark 46, stiffly strode up to Dorothy, was properly sympathetic and agreed to help. Some more are added to the group. Lois Wilson '47, as a limp Scarecrow tried to cheer the despondent pair by an amusing light dance. While she was entertaining successfully, a Blackbird, Mildred Wilson '47, saucily tried to obtain straw for a nest from the Scarecrow until he was chased by Doro-

Tick-Tock and Pumpkinhead

Next on the scene were Tick-Tock, Mildred Halbruegge '44, and Jack Pumpkinhead, Shirley Klein '45. Jack had a hard time trying to make his friend walk straight. After Dorothy found the missing cog for Tick-Tock, he helped devise a plan. Their spirits lifted in hope the quintet danced charm-

When the Witch appeared they alarmed her so that she dropped her lamp that enabled her to cast the spell. They were able to undo her wickedness and release the This was the occasion princess.

Carolyn Kirby '44, in a solo and Betty Brown '45, and Jeanne Perry '47, in a duet, danced gracefully for the pleasure of the Queen and her court. Carolyn leaped and twirled in a delightful manner that pleased everyone.

Although the morning didn't look promising, the spirit of the performers was not dampened. They presented one of the best pageants ever shown at Ursinus. A finished production was the result of hard work on the part of the partici-pants as well as the people backstage in spite of war shortages.

Costumes Attractive

A special word goes to Beatrice Weaver '44, who made the Queen's gown and supervised generally the work of the costume committee. The attendants' dresses, white with ruffles of lavender, yellow, green to sacrifice high ideals for good solemn secret, it is our earnest detimes, but these thoughts are handicaps to our goal, he said.

CURB THE CARTELS

One of the greatest problems which will face the world upon the conclusion of the present hostilities is how to deal with the internation cartels. It is a problem which must be solved if we are to have full utilization of the world's resources — which is the only way of raising living standards to their maximum level.

What is a cartel? How do they work? How can we combat them? The complete answers to these questions are long and complex, but I will try in the succeeding paragraphs to briefly summarize the answers which have been brought forward.

A cartel is a monopoly on a world-wide scale. The systems by which these international trusts are organized are many and varied, but their aim remains constant - the restriction of competition. When competition is eliminated, production is regulated so that prices and profits go sky high. If profits can be raised by scarcity, production is curtailed. If profits can be raised by reducing quality, technological advancement is sacrificed. The effect to the consumer, that is you and I, is a reduction of his purchasing power.

Cartels can be formed in any field where it is difficult or impossible for competition to arise, once the present facilities of production are monopolized; thus, minerals, like tin and diamonds, whose sources are limited are subject to cartel control. Manufactured articles which are held under patents, like synthetic rubber and insulin, also are subject to cartelization along with industries like steel where heavy investment is needed before a potential competitor can enter the field.

Once the cartel is formed - by the concentration of ownership, by cleverly manipulated patents, or by trade agreements among nominally independent firms — exclusive markets are staked off for each member of the cartel. In these areas, the member has a sales monopoly. In the non-exclusive areas, competition among members is eliminated by the creation of production quota. As a result, the cartel can maintain its own arbitrary prices in both exclusive and non-exclusive areas.

Beside the harmful effects on the consumer, the cartels have harmful effects which are international in scope. They have hindered colonies and newly industrialized nations from becoming self-sufficient in the fields which the cartels control. Cartel arrangements also aided Nazi Germany to increase its influence in Latin needed for the production of strategic war ma-

Regulation of cartels is difficult because of their complexity, but certain steps can be taken. Since cartels can't operate within countries where monopolies can't control the domestic market, our first move would be to break their monopolies in this country. Steps in this direction could be taken if we enforced existing anti-trust laws, devised better means of regulation, broke the corporate monopoly on patents (by revision of the patent law and setting up a public research bureau whose findings would be open to all producers), and if the government participated in direct competition.

Since cartels are international in scope, international control would also be neceessary. The setting up of an international agency with power to regulate them should be one of the primary duties of any international organization set up at the conclusion of this war.

Since we all consume the products controlled by cartels it would be advantageeous to us all if they were curbed. This can be done only by increasing our knowledge of their actions and by applying constant pressure on our government to restrict these economic empires.

THROUGH THE LIBRARY WINDOW

THE WILLIAM A. GRUBB COLLECTION

Announcement was made in the September 20, 1943, issue of The Weekly of recent gifts to the library totalling more than two

Of this number. more than nine hundred the gifts of the late William A. Grubb, at one Superintime tendent of the San Francisco branch of Am-Steel erican and Wire company, and formerly a resident of the boarding house which

thousand books.

located, was years ago, on the site of the present library.

The William A. Grubb Collection is probably the finest, and most valuable collection of books ever bequeathed to the library. Mr. Grubb was a fancier and connoisseur of fine bindings, and almost six hundred of the books are bound in one-half, three-quarters, or full calf, Morocco, Levant, and leather. It was decided by the Library committee at a meeting last winter that special closed cases be built to house these finely bound books, as such collections are handled in other libraries, for fine bindings do not remain fine if exposed to dust and to the other elements. The appraisal value of the books and bindings is about \$3800.00-and, of course, appraisal values are usually low.

Interested in Many Fields

Several years before his death, Mr. Grubb planned a trip to the remaining two or three countries of the world that he had not yet visited. His library shows evidence of his broadness of viewpoint and of his interest in an unusually large number of fields of thought. It was his hobby, and he was suficiently interested in the literature of the many countries he visited. to learn the language of different countries and to read the literature in the original language. Between three hundred and four hundred of the books in the collection, are therefore, in German, French, Italian and Spanish. The donor had an unusually large collection of reference books for a private individual, about one hundred sixty being of this nature, including The Century Dictionary, two sets each of different editions of Brockhaus and of Larousse (the famous German and French encyclopedias, respectively), and a large number of other language dictionaries and encyclopedias, and also atlases.

Some of the outstanding acquisitions in this collection are-all in fine binding—the complete works of Chaucer, Shakespeare, Goethe, Schiller, Heine, Lessing, Moliere, Racine, Voltaire, France; selected works of Hugo, Sue, Rousseau, Boc-caccio, Dante Alighieri; fifty vol-umes of Appleton's Scientific library, containing the works of Darwin, Spencer, Tyndall, Huxley, et cetera; some excellent books in the field of the fine arts, including a magnificent volume of plates and text (in German) of all of Michelangelo's paintings. The collection also contains more than fifty volumes of Baedaker's Guides.

Books Prepared for Use

Of necessity, books which are purchased by the library for the several departments are catalogued and prepared for use as soon as they are received. After that, gift books which are apt to be needed in connection with class work, are accessioned. After working on many of the two thousand gift books mentioned above, which include those of Dr. Tyson, the late Hon. J. William Ditter, and Miss Beck, we are now in a position where we have an opportunity to prepare for use some of the Grubb collection. The first lot of these has been placed on a display table in the reading room. Others will be added as accessioned. Browse around. They are available for borrowing. During the commencement season we hope to display some of the fine bindings in the exhibit case in the vestibule, in connection with Mr. Hampton's fine display of wood carving.

GAFF from the GRIZZLY

or What's Bruin

Did you notice: Betsy Schumaker's wee little mother and big tall father . . . President N. E. McClure's broad smiles throughout Parents Day . . Friday night housecleaning in girls' dorms . . .

That little dog at retreat Saturday night almost stole the show.

It was good to see old timers back for May Day — we saw Glad Levengood, Peg Keagle, Marion Fegley, Allie Dougherty, Jane Zulich, Jean Smyth, Janet Wierbach.

There certainly must have been items for Gaff at the **Third Deck** Curtis picnic yesterday. We better not say anything. Ask the third deck fellows.

Restricted sailors are in favor of more Curtain club picnics. Lots of people will tell you that French creek is a pretty wonderful place, and the Donald L. Helfferichs pretty wonderful hosts-even when Mr. H. fell in and got wet to the waist.

Miscellaneous:

Mac got to go to the picnic after all. Good work, Pinky . shame John couldn't make it for the show, **Henri . . .** Look around at the skinned skins from the Capture the Flag battle Sunday . . .

you lunched at Brads around noon-be sure to look for the university nit-wits - Among the group are Ethel Evans as John-Nicki Nachod as Boswell, Betsy Shumaker as Pope, Margaret Richter as Goldsmith, Ethel Cunningham as Garrick, Felicia Glasner as Peg of Downy Lane. (They listen to Johnson play Rhapsody in Blue.)

Again we've been reminded to please mention the Navy Ball.

Among Our Alumni

Rev. Edward W. Ullrich '26, has become pastor of the Robertson Memorial Evangelical Reformed church, of Miami, Florida.

The birth of a son, Neil Owen, on March 10, 1944, has been announceed by Capt. and Mrs. Charles P. S. Thompson. Mrs. Thompson is the former Lilian French '37.

William S. Cramer '37, is employed at the Naval Ordinance Laboratory, Washington, D. C.

A son, Vincent Stephen Tassia, Jr., was born to Mr. and Mrs Vincent S. Tassia on April 2, 1944. Mrs. Tassia is the former Charlotte Gross '33.

Rev. Albert M. Hill '40, and Mrs. Hill, of Radnor, Ohio, have announced the birth of a son, Albert Meredith, on April 16.

Margaret Herbert Park '43, is now teaching English in the junior high school of Merchantville, New Jer-

Word has just been received of the birth of a daughter Catherine Jane on November 9, 1943, to Lt. (j.g.) Frederick Glatfelter '39, and Mary Catherine Diefenderfer Glatfelter, also '39.

Since September, 1943, Dr. Clarence E. Heffelfinger '20, has been associate professor of economics and sociology at Centre college, Danville, Kentucky, and since March, instructor of geography and navigation in the 20th CTD of the Army air forces.

George A. Clark, ex '31, formerly of Cape May Court House, N. J., has arrived in Hawaii to serve the armed forces as an American Red Cross assistant field director. Until his Red Cross appointment, Clark was a teacher at Merchantville, N. J., High School.

With this issue we take over The Weekly, well aware that the road of editorship is a rocky one. There are two of us at the wheel who together will try to maintain past Weekly standards. This is just to say "hello" and — we'll see you.

J. H. '45 & A. K. '45

PARENTS' DAY

From all indications Parents' Day was a big success. Both students and parents enjoyed themselves tremendously and remarks seem to rate this year's May Day plan even better than last year's. A day for both parents is a great idea and most of the students would like to see the innovation instituted as a custom.

I CORINTHIANS, 13.

Dr. Donald G. Baker, associate professor of Greek, gave one of the most meaningful chapel sermons of the year when he presented his original translation of I Corinthians, 13, last week. He explained his intention was to convey the same feeling to Ursinus students that Paul had intended to give the Corinthians centuries ago by putting the thought into words we best understand.

When a student body usually lethargic during required attendance at chapel makes comments, a talk must have been effective.

Dr. Baker's exact words, worth repeating

I may be a famous public speaker or a renowned preacher, but if I haven't any real love in me, I'm just a noisy fire gong or a reveille bugle. If I am a first class debater and can handle all sorts of puzzling questions and am letter-perfect in History 1-2 and have assurance enough to move a mountain, but haven't love, I amount to nothing. It won't even help me in the least to divvy up all my belongings or sacrifice my life for the cause.

Love is everlastingly patient and kind with the shortcomings of others. Love isn't jealous of those who do better than we. Love is never stuck-up, and doesn't try to be a big-shot or a smart-aleck. Love isn't out to grab all it can get for itself; love doesn't pester other people and doesn't pass on nor take any pleasure in catty gossip. Instead it looks for things to praise in others. Love always sticks to the job and sees it through when the going gets tough. Love keeps true. Love never ceases to expect good from men. Real love never fails.

But these tongue-waggers, they will cease; the radio commentators will be silent, the columnists will be unemployed; because the commentators and the columnists only see a little part of the truth, and when the whole truth dawns the half-truths will be scrapped.

When we were little children we babbled the way children do and thought and argued like children; but when we grow up, we get rid of these childish attitudes and actions. (And so it is with the important things in life.) We see just now a sort of foggy reflection of the truth, but someday the truth will be there glowing, clear, right in front of our faces. And right now we only have glimpses of what we and others are like, but someday we'll really know what we are, and we'll be known for what we are, too.

Well, anyway, there's loyalty and hopefulness and love. These three things abide; and the greatest of them is love.

Ursinus Girls Defeat Bryn Mawr Team, 13-4

The Ursinus lassies continued on their undefeated way by overcoming the girls from Bryn Mawr Thursday by a score of 13-4. Since the Bryn Mawr girls use a harder smaller ball three innings of hard ball were played and four of softball. Nothing could stop Snell's belles. At the end of the hard ball innings the score was 5-4 in favor of Ursinus and they continued to rack up the score while playing softball.

Individual stars of the game were second baseman Betty Kirlin and softball pitcher Erma Keyes. Kirly made some beautiful catches of balls which seemed as if they would be sure hits. Neither high flies nor hard hit line drives could get through her. Then to top her performance off, she connected with a Bryn Mawr pitch to send the ball far out into left field for a home-run bringing in two runs ahead of her.

softball and the Bryn Mawr coeds weren't able to come near scor-In her four innings on the mound she struck out seven and gave up only two walks. One of the most spectacular plays which thrilled the spectators was created by Jeanne Loomis. Leamy completed a beautiful triple by absolutely bewildering her opponents. She dashed from base (Continued on page 4)

V-12 NAVY DECKS LAUNCH TWILIGHT SOFTBALL LEAGUE

Soft ball teams representing each deck of Brodbeck and Curtis halls formed a twilight softball league which was officially started last Tuesday evening. Thus far the competition has been keen and the enthusiasm has been at a high pitch. There promises to be many well fought decisions before the league is dissolved about the middle of June.

Scores for last week's games are as follows:

1st (deck) Brod. 5; 1st Curtis 3 2nd (deck) Curtis 4; 2nd Brod. 3 3rd (deck) Brod. 8; 3rd Curtis 2 2nd (deck) Curtis 14; 1st Brod. 6 Percentages for the teams are:

W	on	Lost	Pct.
2nd Curtis	2	0	1.000
3rd Brodbeck	1	0	1.000
1st Brodbeck	1	1	.500
1st Curtis	0	1	.000
2nd Brodbeck	0	1	.000
3rd Curtis	0	1	.000

Avenging an early season defeat. performance of the season Wed- the Ursinus Bear rose up in all his Swarthmore down with three Marshall 7-5, at Lancaster on Satmeagre hits, blanking them 1-0. urday. Bill Shegda earned his It was the third straight win for fourth victory by scattering seven Ursinus; their sixth in ten games. hits and getting into trouble on only two occasions. The Bears For three innings both Shegda rapped out fourteen hits and

Ursinus Scores Early Ursinus went out after a score

at the outset, were held off for two innings, but in the third, fourth and sixth they got single runs and finished off brilliantly with three in the eighth and one in the ninth. In the third Simons singled, was sacrificed to second by Jack Miller and came home on Sherman's bingle to left center. In the fourth Webster and Snyder each broke off a hit to give us a 2-0 lead. Meanwhile Shedga sailed along with a one hitter until the fifth when two walks, an error, two infield outs and a solid single by the F. and M. pitcher, Murphy, drove in three runs and took away the Ursinus lead. But our boys Lobell Allows 6 Hits were not out of it yet. Snyder Aside from this one lapse, Lobell doubled for his third straight hit and came home to tie up the game He gave up only 6 hits and issued 4 in the sixth on a long hit by Tenewalks while striking out 6 hitters. witz. Pete was really a big gun witz. Pete was really a big gun in our attack with two doubles and two singles for five trips to the was he who started off the eighth Dougherty's sensational catch of inning rally and when Shegda was Brodie's long ball in the seventh hit by a pitched ball we were off to the races. Archie Simons and Jack Miller both walked, forcing in one run. Sherman singled to

In the ninth, they clinched the verdict when Webster singled and came home on Tenewitz's hit. This Reese trying to go to second in the ninth.

The Bears threatened in the last in their half of the ninth.

Simons Spiked

All was not sweetness and light in the Ursinus camp, however, as Archie Simons was spiked badly in the eighth inning trying to complete a double play. The cut required six stitches to close and the team will be seriously handicapped by his loss. Jackie Kemp came in from center field to second in the ninth and made the final out for F. and M. by throwing out Karl on a hard smash.

With two tough games this week, both away, one against Muhlenberg, the other opponent being Villanova, our Bears have work cut out for them but with a little luck, Shegda's fine hurling and a continued barrage of basehits from Ursinus bats we should 0 0 make a good showing.

for giving the boys a break

You do someone a real favor when you stay off Long Distance lines from 7 to 10 at night. When a lot of people do that, a lot of service men's calls get through quicker.

The soldiers and sailors—their folks back home—and the telephone company are all grateful for your help.

So tonight and every night, "give seven to ten to the service men." That's about the best time they have to call.
