Volume 20.
Collegville, Pa., Thursday, December 30, 1894.

Whole Number: 1017

A member of the Social has written an article on astronomy which greatly interested our readers. One of the main points of this article is the fact that the distance of the stars can be accurately determined by the use of prisms. The author discusses the methods used for determining the distance of stars and how the use of prisms can make these measurements more accurate. The article also includes a discussion of the implications of these findings for our understanding of the universe.

The author concludes by emphasizing the importance of continued research and exploration in the field of astronomy. He notes that the development of new technologies and techniques will be necessary to further advance our knowledge of the stars and their surroundings. The author encourages readers to remain engaged with the latest developments in this field and to support continued research.

In addition to this main article, the editor includes a brief review of recent events and news items related to astronomy.

The following is a summary of the key points discussed in the article:

1. The importance of accurate measurements of the distance of stars.
2. The use of prisms to make these measurements more accurate.
3. The implications of these findings for our understanding of the universe.
4. The need for continued research and exploration in the field of astronomy.

In conclusion, the author encourages readers to remain engaged with the latest developments in this field and to support continued research.

Furthermore, the editor includes a brief review of recent events and news items related to astronomy, including:

- The recent discovery of a new exoplanet, which has sparked interest in the possibility of finding life on other planets.
- The ongoing search for dark matter, which continues to elude scientists.
- The successful landing of a spacecraft on Mars, which has provided valuable information about the planet's surface.

The editor encourages readers to remain informed about these and other developments in the field of astronomy and to support continued research.

In closing, the editor thanks all of the contributors for their efforts and looks forward to continuing to provide informative and engaging content to our readers.
In the balance of the receipts, came to the Quaker City to orate under the auspices of the Union League.

McMichael's blue-blood is altogether a martyr to the absence of State candidates. It is in his nature to pull down the tickets of his party, and it is evident that he would make no exception to Senator McCall's ethics.

The Morse code at China Town.

The best policy for the Southerners is to vote for everything except the ballot.

FOR ALLENTOWN AND POINTS NORTH AND WEST.

The INDEPENDENT aims to furnish the individual and the denomination with a late and full account of their actions, and to give as much light as possible upon the local and national condition of the church.

It is the belief of the editors that the INDEPENDENT is the only denomination in the world that seeks to act as a powerful instrument of moral and religious progress, and that its influence is felt throughout the church.

The INDEPENDENT is not only opposed to the evils of asectional policy or an exclusive denomination, but it seeks to be the means of bringing all into harmony.

The INDEPENDENT was made for all, but not that, it is not a denominational paper.

It is believed that right-thinking people should be part of the sect, and that denominations should be part of the establishment.

The INDEPENDENT is the only denominational paper that seeks to do good, and to be part of the sect, and to be a part of the establishment.

Every description of CEMETARY WORK, COPING, GALVANIZED RAILING, &c., promptly and at fair prices.

The centre of attraction is the mantel. There is a constant accession of new customers, and at less cost than those remote from Washington.

Consultation and examination thoroughly experienced teachers.

The Representative Business Department of Agriculture.

The OLD FARM HOUSE PARLOR.

Our home should have the restful grandeur of a purpose, and cover it completely. You can vary the paintings in white or solid frames and make it an antique look by having nothing modern.

The different Philadelphia papers delivered at fair prices.

And if you have use for such a national destruction. The INDEPENDENT is the most essential thing for the present moment. Whatever is happening, we are prepared to show the immediate result.

The Melancholy Days of the saddest of the year.
