This page contains text primarily from the Providence Independent, a newspaper, and includes advertisements and announcements. The main content seems to be a series of notices and notices, possibly related to real estate and legal matters. There are also some personal notices, such as the mention of a Land where the streets are paved with money, and a reference to 'Looking Backward,' a novel by Edward Bellamy. The text is quite dense and contains a mix of formal and informal language, typical of late 19th-century newspapers.
WASHINGTON LETTER.

Washington, D.C., January 25th, 1926.

Mr. Cartwright,

Dear Sir:

I was heartily glad to see a letter of yours the other day giving me the date of your next birthday. It is true that I was not present when you celebrated that event, but I do not think the 25th of January was your birthday.

I do not know whether you have any idea what I am going to say, but I have heard it said that you are a very wise man, and that your advice is always followed. I wish you a happy birthday, and I hope that the new year will bring you many blessings.

Your truly,

[Signature]

C. W. Cartwright

Washington, D.C.
A letter from the

To the public,

As a member of the United Evangelical church, Trappe United Evangelical church, Trappe, Wednesday morning, at 10 o'clock. The church is located on the corner of Main Street and Dutch Road. Ministers present: Rev. J. P. Kern, formerly of this town, and Rev. Joseph Webster, aged 45, of West Norristown, the latter being the secretary of the congregation. A large and enthusiastic crowd was present, and the service was conducted in a most efficient manner. The choir sang several selections, and the congregation was deeply impressed with the beauty of the music. The sermon was delivered by Rev. Joseph Webster, who spoke upon the subject of "The Nature of Sin." His discourse was well reasoned, and the congregation was left with a clear understanding of the nature of sin and its consequences. The service concluded with an invocation, and the congregation left the church in a state of deep spiritual emotion.

CULBERT}

A correspondent's experience

Dear Editor:

I have been a correspondent for several years, and I have found the work to be both interesting and profitable. I have had the opportunity to travel extensively, and I have been able to observe many different things in the course of my travels. I have found that, in order to be an effective correspondent, one must have a keen eye for detail and a ready command of language. One must also be able to write clearly and concisely, and to express one's thoughts in a manner that is both accurate and interesting. I have found that the work is not without its difficulties, as one must be able to work under pressure and to meet deadlines. However, the work is also very rewarding, as one is able to contribute to the world of journalism and to help to inform the public about the events of the day.

Yours truly,

A Correspondent.
The INDEPENDENT aims to speak the thoughts of a nation and that wrong does not prevail in the land, for the purpose of aiding the poor, the infirm and diseased. It does not advocate public and private improvement, but a general improvement of the human condition. It is a weekly, elegantly illustrated work, the largest circulation of any scientific work in the country.

The INDEPENDENT wants a special attention always given to a few of the thousands of items reduced below its value.

Great Savings in Prices

The following is only a part of our Stock Reduced Below Cost.

<table>
<thead>
<tr>
<th>Item</th>
<th>Previous Price</th>
<th>Reduced Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wheat Bran</td>
<td>50¢ per bushel</td>
<td>25¢ per bushel</td>
</tr>
<tr>
<td>Rye Feed</td>
<td>50¢ per bushel</td>
<td>25¢ per bushel</td>
</tr>
<tr>
<td>Corn Bran</td>
<td>50¢ per bushel</td>
<td>25¢ per bushel</td>
</tr>
</tbody>
</table>

We name a few of the thousands of items reduced below its value. The enormous reductions are made in the interest of the public, and will be sold at such low prices as will astonish you.

There are good reasons for doing more of our work by feeding before doing the winter work. There is no better time for the work of this sort, and it is always a good policy to do the winter work when all the work will be done in the spring. The best time for the work is in the spring, and while the grass is green, and the ground is soft, and the work is easy.

If the work is done in the fall, the roots will be broken and the grass will be killed, and the work will be very difficult.
