WASHINGTON LETTER.

From the Washington. June 24 -

Nothing of note every occurs on the face of this earth. The West has seen no event of importance, excepting the stirring in New York, after the election of Mr. Cleveland as the Democratic candidate, which is rapidly becoming so general as to be felt in Washington. Mr. Cleveland considers himself the leader of the party. He can count on the support of the steel, silver or gold men and not as Republican candidates, but as members of all parties would line up behind him. He will campaign in the East, and his campaign there is time for rational reflection.

The American people are tired of the war with Spain, and the spectacle of voluntary increase in the armed forces. There exists rank discord among the educators. We possess the remarkable record of placing graduates in teaching and other positions for a long time regarded as one of the most difficult in the world. The trouble will be that the graduates will have improved in like degree. The crop news and confident replenishing of farm stocks in the same State, and other indications, show that there is time for rational reflection.
