It's The Hormones In You, But 40% Don't Have Them

So the Ursinus coeds are "purely youthful" as 75 women in 246 of them skirted around this fair campus, and yet 110 of the college's mother union have kissed a grand total of 391 campus coves.

It's starting, but a comprehensiva survey conducted by the Ursinus commissioned study has found that only 19.7% of the students disclose that fact. A trained staff of reportorial and secretarial talent was called in to canvass all of the men dormitories and the women's hall.

To those men who were asked how many different Ursinus girls he had kissed, the average answer was 11.3 girls. And the result was—well, look at these:

Of the total 198 men contacted, 99 have never kissed at all in this—oh, what to say?—10.6%. Whose fault? Maybe the boys. And if you think 40.6% is a small proportion, whose fault then? Maybe the girls. After all, what can a poor guy do.

HARTMAN PROVES LUCKY MAN IN SOPH HOP SURPRISE

Balloons floated down among the chattering throng as a bright-eyed wonder of a boy walked into the surpriseaffle at the Thompson-O'Gorum Gymnasium.

Don Price's "baptization," led by the student body's favorite announcer, was the highlight of the Soph Hop which was held in the gymnasium at 7 p.m. Saturday evening.

Price, who announced the Soph Hop, had never announced before, but his voice carried loud enough to carry far enough to be heard by the hundreds who filled the gymnasium.

The Soph Hop was held in the gymnasium at 7 p.m. Saturday evening.

The mode, or number appearing most often, is three, while the median, or number appearing halfway through the group of numbers, is 2.76. Al- though the median number is not the best measure of a group of numbers, it is perhaps the most often used.

Dr. Frank Pierce Peters

The program, which was performed in the gymnasium will be given at 7:30 p.m. on Monday evening.

The program will include several musical selections, a reading, and a humorous sketch. The performers will be members of the college faculty, staff, and students.

The program is open to the public and admission is free. A collection will be taken for the benefit of the college's athletic program.

The program will conclude with a brief closing prayer and a benediction.

The program is sponsored by the college's Department of Fine Arts and the Student Government Association.

The performance is supported by a grant from the National Endowment for the Arts.

The program will also feature a performance by the college's Chamber Choir, which will sing a selection from their upcoming tour to Europe.

The performance is part of the college's celebration of its 125th anniversary.

The performance will be followed by a reception in the gymnasium where refreshments will be served.

The performance, which is open to the public, is sponsored by the college and will be held in the gymnasium.
The Mail Box

With the force of an unab-
ounced quixotary survey
junks its figures. The sur-
veys reveals all. Perhaps not
shocking, but at least it can be
classified in our office depart-
ment. Local Lotharios loosen
lips! And don't laugh girls, be
next time.

There seems to be a general
belief among colleges that
the question of undergraduates''
ideas of dating and mating.

GROVE, BLUM, DEBUQUE, AND LAUCKS ARISE AT HOME

Two men's debates hold the center of the stage during the week of March 7-12. In the first, held in Bomberger Hall on Thursday evening at 7:30, William Grove '38, Charles Blum '39, and Charles Barnes '40, upheld the negative side of the National Labor Relations Board question for Ursinus, in competition with Brother's College of New York City.

Next night's debate against Albright College was again held in Bomberger Hall. The same question on NLRB power to compel arbitration in industrial disputes question was discussed affirmatively by Samuel Laucks '39, and Joseph Disbrow '41, of Ursinus.

At the same time William Grove '38, Charles Mertz '39, Paul Haas '39, and Charles Barnes '40, will take the negative side of the debate which includes contests with Kiel-abeta College (a radio debate), Franklin and Marshall College, and Susquehanna College, at last year's debate of the Ursinus National Labor Relations Board.

944 PROVES GOAL IN FROSH TREASURE HUNT
A box of chocolates rewarded the nearly 300 freshmen who finally completed their puzzling course in the freshman treasure hunt last Fri-
day evening.

More than fifty fresh divided into six groups to follow the sepa-rate trails which all led to 944. Screams from the baseball dish-
mond, the Glenside Memorial, and the Science Building all meant the same thing: Frosh looking for num-
bered slips to prove they had followed their clues.

By 8:30, however, most of the hunters had arrived at 944. Here refreshments were served to victor and vanquished, and there was dancing on the porch for the remain-
der of the evening.

History Of Radium Told By
Director Of College

An illustrated lecture, "The Physics and Therapy of Radium," was given by Dr. Charles A. Bech-
tel '12, last Monday evening, March 7, in the auditorium of the Science building.

Dr. Betchel is a member of the Board of Directors of Ursinus College as well as associate in obstet-
rics and gynecology at the University of Pennsylvania's Medical School. For several years he has been associated with Dr. George M. Bigler, an outstanding gynecologist, who is also a member of the Ursinus Board of Directors.

A large group of students heard Dr. Betchel's discussion of the deve-
lopment, manufacture, harmful effects, and present use of radium the effectiveness of all types of radio-active emanations was in-
cluded in the lecture.

LUNTZ DEBUNKS SCARECROWS
IN VESPERS TALK
“Scarecrows” was the arresting
little chosen by Dr. John Luntz for
his talk last evening at the Vesper
service in Bomberger Hall.
Dr. Luntz said that the best
scarecrows in the Bible are those
in the parable of the talents. The
scarecrows in this parable are
those confronting the man
with the single talent. They are:
Little
of the individual, unavow-
ableness of circumstances, and
fear of failure.

The result was that the man
With the single talent did nothing,
kept what he had, but eventually
lost everything. The lesson is that
very often the scarecrows we meet
in life are signposts of a place
where a feast, or success, may be
found.

Wait... wait...
that's the watchword for
Chesterfield tobaccos

Here's the reason so many smokers
like Chesterfields...

Thousands of casks of mild ripe
Chesterfield tobacco are kept in storage
all the time—every pound of it
aged 2 years or more to give Chester-
field smokers more pleasure.

Chesterfield tobaccos—home-grown
and aromatic Turkish—and the pure
cigarette paper used in Chesterfields
are the best ingredients a cigarette
can have. They Satisfy.

...they'll give you
MORE PLEASURE
