Providence Independent, V. 22, Thursday, March 25, 1897, [Whole Number: 1135]

Providence Independent
Hood's Sarsaparilla

Hood's Pills

LITERARY

Editorial by P. M. Nibley.

The young ladies of Central College who have been the most noticeable are the best dressed. Their figures are as full as their heads. The next best is to find a suitable dress for the occasion. The best of all is to have a dress that is suitable for the occasion.

Scientific Miscellaneous

The opening article in the latest number of the Journal of the American Medical Association is a valuable contribution to the literature of the subject. It is written by Dr. E. B. Hooker, of the College of Physicians and Surgeons, and is entitled "The Uses of Memory in the Practice of Medicine." The author describes the use of memory in the practice of medicine, and gives a brief account of its history. He also discusses the various forms of memory, and the methods of improving it. The article is full of interesting facts and statistics, and is well worth a careful study.

The next article is by Dr. J. H. Gage, of the College of Physicians and Surgeons, and is entitled "The Uses of Memory in the Practice of Surgery." The author describes the use of memory in the practice of surgery, and gives a brief account of its history. He also discusses the various forms of memory, and the methods of improving it. The article is full of interesting facts and statistics, and is well worth a careful study.

The third article is by Dr. J. H. Gage, of the College of Physicians and Surgeons, and is entitled "The Uses of Memory in the Practice of Medicine." The author describes the use of memory in the practice of medicine, and gives a brief account of its history. He also discusses the various forms of memory, and the methods of improving it. The article is full of interesting facts and statistics, and is well worth a careful study.

The fourth article is by Dr. J. H. Gage, of the College of Physicians and Surgeons, and is entitled "The Uses of Memory in the Practice of Surgery." The author describes the use of memory in the practice of surgery, and gives a brief account of its history. He also discusses the various forms of memory, and the methods of improving it. The article is full of interesting facts and statistics, and is well worth a careful study.

The fifth article is by Dr. J. H. Gage, of the College of Physicians and Surgeons, and is entitled "The Uses of Memory in the Practice of Medicine." The author describes the use of memory in the practice of medicine, and gives a brief account of its history. He also discusses the various forms of memory, and the methods of improving it. The article is full of interesting facts and statistics, and is well worth a careful study.

The sixth article is by Dr. J. H. Gage, of the College of Physicians and Surgeons, and is entitled "The Uses of Memory in the Practice of Surgery." The author describes the use of memory in the practice of surgery, and gives a brief account of its history. He also discusses the various forms of memory, and the methods of improving it. The article is full of interesting facts and statistics, and is well worth a careful study.
