Party to Be Held - Saturday Evening

Christian Organizations And Student Councils To Sponsor Affair

HOBO ATTIRE MUST BE WORKED ON

On Friday night, October 30, the youth of the whole nation will once more have its fling, the fling that is known as All Hallow's Eve. The regular programs for the night on Saturday, November 5, the post-Halloween Eve, will be kept to a bare minimum.

The dance of the Thompson-Gaynor gymnasium will be at 8:00 o'clock on the evening of November 5. The only program for the evening will be an affair in which all will participate. An affair that will be forever to be remembered—yes, it will be remembered.

The doors of the Thompson-Gaynor gymnasium will be at the start of the dance (at 8:00 o'clock on the evening of November 5). The only program for the evening will be an affair in which all will participate. An affair that will be forever to be remembered—yes, it will be remembered.

The doors of the Thompson-Gaynor gymnasium will be at the start of the dance (at 8:00 o'clock on the evening of November 5). The only program for the evening will be an affair in which all will participate. An affair that will be forever to be remembered—yes, it will be remembered.

THE URUSINUS WEEKLY

THE TOWER Window

TRENDS IN EDUCATION
By Professor Eugene B. Michael

Trends shall be treated in this article from two standpoints, first as to the standard of entering the four-year institutions in the year in which they were graduated, and second, as to the raising of standards in the trend of graduation in the universities.

Placement of Ursinus Graduates in Teaching Positions
Figures for the last four graduating classes show that 77 members had placed on fresh graduation from the college. The total of 77 is made up as follows: Class of 1931, 24; Class of 1932, 14; Class of 1933, 17; Class of 1934, 16.

On a percentage basis, using the number of people actually employed in teaching within four months after graduation for the class who desired to teach, figures for Ursinus College show the following: Class of 1931, 92 per cent placed; Class of 1932, 92 per cent placed. Class of 1933, 86 per cent placed; Class of 1934, 73 per cent placed.

On the same line of reasoning, above the above, the percentage of placement of all Pennsylvania liberal arts college graduates in teaching was 69.9 per cent. Figures for 1934 have not been released thus far for Pennsylvania.

A study made by the University of Minnesota regarding the teacher placement of the class of 1934 shows that 75 per cent (a low Master of Arts degree) of denominational universities, reported from 77 to 90 per cent of their graduates placed in teaching within four months. The percentage for Ursinus for the class of 1934 is 73 per cent, which is the highest possible for a class who desired to teach, figures for Ursinus College show the following:

On the same line of reasoning, above the above, the percentage of placement of all Pennsylvania liberal arts college graduates in teaching was 69.9 per cent. Figures for 1934 have not been released thus far for Pennsylvania.

Raising the Standards in the Teaching Profession
The type of information and experiences gathered from the above article has led many states to consider the application of more rigorous selective procedures in college entrance and graduation. Several states have made initial steps toward securing some degree of certification. In Pennsylvania, the State Department of Public Instruction and many groups of educational work are working on these problems. The outcome of these efforts will indicate the direction of the discussion of these groups shows the following trends:

1. A greater interest in the psychology, including practice teaching, (130 clock-hours, which is the present requirement for New Jersey), is indicated. The psychology, teaching of psychology, is indicated.

The general idea is that the yearly large delinquency teaching.

2. The percentage of college graduates in the present circular at the present time. This may not be far distant when they will become definite requirements.

3. Permanent Certification Certificate based on a Master's degree, as indicated by the above circular, or 30 semester hours of graduate work as indicated another plan.

4. Preventing individuals from entering the teaching profession whose personality traits are not desirable for teaching.

5. Civil Service Employment for teachers.

6. Selecting all teachers through the present circular.

Ursinus-College, Gettysburg College, and the University of Pennsylvania are now working on these problems, and the best students to go into this profession. It is quite possible that other states and institutions are considering this plan, and it is fairly definite that no information has not come to me concerning these possibilities.

GRIZZLY GLENNINGS

Another up! Herraa was here for three whole days and she giggled to see such a gorgeous创建！

While we're tearing out the alumni, we might mention that Irving E. Corwin, on his campus without limit's of the University, a trip to Vermont was made by them. It was in the garage, for repairs,

states Herraa.

Ood tragedy! A whole batch of big bears and poor "Mom-goo" Gregory isolated in law school.

To be specific, Billiger, you are a darn slow wolf.

"German" Wilder has been driving the hundred mile mark on his "Xenon." Son has had to bring the horse to the test, the "Mighty Quixote" to the test, the "Mighty Quixote" on the test, the "Mighty Quixote" on the test.

Some of our little stripped friends must have had hitlers, Four out of five, can be seen in the garage.

King Little is out. Snow ball is on a trip to two more bears into his field. The.

Lips camp left. Those Lips camp left. Fish are the lucky bugs.

Shades of the "24 Ruby" We all forget that we enjoyed it. I am sure the memories are not with the memory, and evidently proved stronger than the memory. I had a letter this week, from the old man, who had again as Irving Edward "Ruby" Grizzly "Glennier" Hill and David, Grizzly "Glennier" Hill and David, the other night. Everybody might have been surprised to know the history test staring twenty-five of the history test staring twenty-five.

But the two things put together as usual.

The old man on brown shoes had been revived, everything would have been all right if he had been alive. The old man on brown shoes had been revived, everything would have been all right if he had been alive. The old man, who had been alive, his memory, is the only thing that was.

The Wellman Process does this...

...it makes the tobacco milder

In the manufacture of Granger Rough Cut Pipe Tobacco the Wellman Process is used.

The Wellman Process is different from any other process or method and we believe it gives more enjoyment to pipe smokers.

...it gives the tobacco an extra flavor and aroma

...it makes the tobacco act right in a pipe—burn slower and smoke cooler

...it makes the tobacco milder

...it leaves a clean dry ash—no soggy residue or heel in the pipe bowl

LIGGETT & MYERS TOBACCO CO.

...in a common-sense package—10c

We wish in some way we could get every man who smokes a pipe to just try Granger
and finds the path to destined goal.
HOCKEY AND BEAVER TIE IN ANNUAL HOME GAME, 2-2

Eleanor Lyle, Bups Francis Score

Tallies For "E" Girls

Last Tuesday the Ursinus eleven and the Beavers from Jeannetown played their annual tilt in Collegeville, which resulted in a tie score of 2-2.

The work of the "female Bears" showed considerable improvement in this most important game of the season, over that of the two previous games. Cooperation in the whole team was greater. The interchange of backs was noticeable, while the forward line showed improved speed.

The initial goal for Ursinus came during the first half when "E" Lyle put the ball across for the first point. Shortly afterwards, Captain Smith's Francis scored the second point.

Point makers for the Red and Grey were Captain Bell and Edward H. T. Simons.

"Mid-Goldie" Shedd, sustained an injury in the second half which incapacitated her for the rest of the game.

éal Score: Carroll 1; Rose 1; McCann 1; Bell 1; Simons 1; 0-0-0-0.

Owing to an injury which occurred during the second half, Ursinus Substitutions were not necessary.

Curtis and Derr Still Unbeaten As Dorn Football Continues

The landslide victory of the Day during the interim match was the highspot of the interterm season. The value of the game is still settling the pace, profiting by the good football that came through a trying effort.

A highlight of the game was the fall of Bine and Derr, both of whom were carried off the field. The players were examined by Dr. T. A. Godfrey, who declared them fit for football.

URSINUS, GETTYSBURG TIE FOR FIRST IN LOOP FOOTBALL

G-Burg Students Expect Victory In leftover Eastern Pennsylvania Collegiate League race, when it took over F. and M. in a surprise win on October 15.

While the Bears were tying Dickenson at Carlisle last Saturday, the Gettysburg Bullet traveled Allentown to defeat Muhlenberg 12-0. Even though the Grizzlies did not beat Dickinson, they remain tie for first place with G-Burg, according to the percentage figures.

However, if the Bears remain undefeated for the rest of the season, their victory in the conference loop will be considered, providing that Dickenson loses or ties a game. For if the Bears remain undefeated, it will mean that Gettysburg and Muhlenberg will have losses checked up against them to stop any championship hopes they may have.

Gettysburg students enjoyed today off as a result of their victory over the Mules. They have been promised another vacation day, if the Bulldogs conquer the Bears on November 17.

The games yet to be played in the conference this year are:

November 3
Muhlenberg at Franklin and Marshall.

November 10
Dickinson at Gettysburg.

November 24
Muhlenberg at Dickinson.

November 27
Franklin and Marshall at Dickinson.

Conference Standing

Team W. L. T. Pts.

G-Burg 4 1 0 0

Dickinson 0 1 0 0

Muhlenberg 0 0 1 0

F. and M. 0 0 1 0

Numerous studies have shown that there is no significant difference in taste between the two types of tobacco. The choice is purely a matter of personal preference.

It is not possible to determine whether Turkish tobacco is more important than other tobaccos without further information. However, it is known that Turkish tobaccos are popular in some countries and cultures, and they are often used in the preparation of cigarettes, cigars, and other smoking products.
