PROHIBITION IN PHILADELPHIA.

Firth of Forth, has been a famous Philadelphia has established a new record of 659 sudden fortress, holding out for years against deaths in twenty-nine days. Of this number thirty were suicides, an attacking army. Now, it is a sea and 307 were attribued by the coroner's chief investigator to the on the impregnable cliffs. effects of "moonshine" liquor. This dismaying record invites that is the most beautiful moment serious reflection. As to suicides, while the number is no doubt of all, for it is like a scene from fairyunusually large for the period stated, it is small in comparison with and, with dream-wings floating above the number of deaths resulting from the drinking of poisonous you. The next minute a gannet utters decoctions, under the reign of irrational and impracticable legisla-reply, until there is a deafening chorus. Garfield the other. Robert Todd tion-under the reign of Prohibition and Volsteadism. Drunkenness prior to Prohibition was deplorable enough, but the attempted do this you must be a good climberdetermination and regulation of the drinking habits of the people, then you will see many interesting is over eighty years old. under arbitrary sumptuary legislation has thus far proven to be things. very much worse and far more deadly. It would be interesting to observe how effectively restraining a law to prevent suicide would prove to be. More than probable the effect of such legislation would be to increase rather than decrease the number of suicides. It would direct special attention to the abnormal acts of selfdestruction and the psychological influence of such legal procedure cliff." would be more likely to increase than decrease the number of suicides. With respect to the habit of drinking intoxicants : American citizens, prior to Prohibition, accepted without protest punishment for excesses, resulting in harm to themselves and to others, but millions of Americans will never, without very serious and rightful protestation, submit to any law that dictates to them what beverages they shall not drink. So long as the human race exists on we were not playing so well, but we our little planet the habits of mankind will not be successfully dewere enjoying the company of a friend mightily. Then he gave us this one: termined by constitutional amendments and statutory laws. "Had two tires stolen off the car

THEY HAVE NEVER SEEN DOMESTICATED ANIMALS.

____0____

Wild animals from many quarters of the earth are kept in confinement in what are termed zoological gardens maintained in various large cities in the United States. They are on exhibition for the purpose of acquainting school pupils and others with their appearance and characteristics. Now the information is current that many school pupils and even some adults, living in cities, have were anyhow never seen specimens of domestic animals. In St. Louis 40 per cent. of the sixth grade pupils in the public schools have never seen sheep, 17 per cent. have never seen a hog, and 12 per cent. must have weighed a whole lot more have never seen a cow. No doubt the same percentage of ignorance than that, for I had 75 pounds of air of the existence and appearance of domestic animals pertains to put into it just this morning." other cities. In New York city the startling proportion of 50 per cent of the school children have never seen a cow. In discussing There is no branch of art in which the lamentable ignorance of city children and of many city grownthere is more pretense than in music. The trouble lies in the fact that ups the editor of the North American says :

We recall a talk we once had with a bright 8-year-old lad at a well as performance, and when a per- moisture and plant food from the children's picnic in Fairmount Park. He was eating a banana, son likes a thing it is rather hard to earth, and pass them along to the and we asked him if he knew where bananas grew. "Sure," he said promptly: "on Tony's stand down Fitzwater street." We know that such a one totally withrather suspected the youngster of satirical intent at first. But upon out study or musical knowledge, inquiry among the other children we found their idea was that the simply cannot appreciate a certain ultimate source of water was the reservoir, that meat originated in butcher shops, and that the wood constituting the body of a coaster wagon was derived from the lumber yard. Our explanation that Roman Empire." the piles of boards there stored came from trees like those along Yet what terrible bluffs such people put up! the Wissahickon was received with blank astonishment.

Americans have much reason for pride in their public schools. with a woman. Yet manifestly there is something lacking in an educational system "You know," he said, "I am in which teaches hygiene and political economy and civil government favor of singing all operas in this country in English. I think it prefand virtually ignores the most fundamental facts of human exerable from every standpoint." "I do, too," she gushed. "Why, I istence.

It is evident that neither the children nor their parents realize that the former, by reason of a hampering environment and a deliked it very much. fective education, are deprived of knowledge essential to adequate understanding of American life. In truth, the children as a rule reflect the attitude of their elders, in a conviction that as dwellers William Ewart Gladstone and Mrs. in the city they have advantages far superior to those of youngsters Gladstone by their daughter, Mrs. living in rural communities. This is a common conception, though it is almost invariably shattered when put to the test. The couhtry boy awaits with awe the first visit of his sophisticated city cousin, and humbly endures the latter's condescension ; but within a few hours training tells, and it is the farm-bred youngster who takes the leadership by right of knowledge.

From the Christian Century.

EDUCATING A MINISTER.

Several years ago a young man fresh from college resorted to seventy as when he was half that age. a widely known training school to gain his preparation for the ministry. After the opening session had progressed for some six weeks a written test was called for in one of the courses he was pursuing. court rooms a "bootlegger" was dis-Two or three days after handing in his paper he was called to the missed by the judge on the grounds office of the president of the institution, where he found that officer that the rural route box number on in possession of the paper he had prepared in the test mentioned.

"Mr. Blank, may I ask whether this paper which I have in my hand is your work ?"

On Mr. Blank's identifying it as his, the president proceeded, violation in the residence, was heard "Well, now, Mr. Blank, would you inform me where you got the to mumble as he left the court room: "The law's a curious thing." answer you have given to this third question?" Rosy Cheeks Without Paint.

Mr. Blank replied that he could scarcely say where it had come from, beyond the general observation that he had thought out the the promise an English beauty expert answer on his own account.

"Mr. Bank," said the president, "I must make it clear to you coloring is injected through a hypodermic, and does away with powder puff that the students in this institution are not expected to set forth and lip stick. It can be used for colorwhat they may think about the subjects in which they are being ing the cheeks as well. instructed; they are, on the contrary, expected to learn and give the answers which are supplied by their instructors.
