KEEP PEGGING AWAY

"How is business?" I asked the good coo-ber one day. He answered, "I just keep a pegging away. There are times when I feel discouraged 'is true. But by pegging away I finish the shoe." "This world," I replied, "is a busy old place. If you're eager to win wear a smile on your face. Learn a lesson from all the mistakes of the past—keep pegging away—and just stick to the last. Buckle down to your work secure in your soul. The earnest endeavor will lead to the goal. The lessons of life are not learned in a day. They need time and thought, so keep pegging away. If business is dull don't waste time in sorrow. The knocks of to-day are the boosts for tomorrow. Keep pegging away with a heart full of cheer. And after a while they will know you undertake, J. L. Bechtel.

AUTOS BY FORD TO FLORIDA;

1500 MILES IN FOUR DAYS

Lawrence Miller, son of Mr. and Mrs. Clayton Miller, of Trappe, autoed to Florida last week in four days. He covered 1500 miles in those four days. Miller left Trappe on Thursday morning, October 21 and arrived in Miami Sunday evening, October 24. He made the trip alone and drove the machine every mile himself. He made the tour in his familiar and trusty Ford roadster. Miller is a journeyman carpenter belonging to the Norristown local of the carpenters' union. He expects to ply his trade during the winter months in the sunny climes of Miami helping to rebuild what the hurricane devastated. He was not out for any speed record on his trip and stopped to sleep and take in the sights at various cities along the way.

KEYSTONE GRANGE STRONGLY

OPPOSES HUNTING PHEASANTS

At the regular business session of Keystone Grange, No. 2, Trappe, on Wednesday evening the grange went on record as strongly opposed to the shooting of pheasants at the opening of the gunning season. They passed resolutions to that effect and urged the members to placard their grounds and prosecute to the full extent of the law anyone seen shooting pheasants within the bounds of their properties.

COLLEGEVILLE CHAUTAUQUA

The attention of all who enjoy excellent entertainments is again directed to the forthcoming Collegeville Chautauqua, beginning November 13, and ending November 16, with Sunday service. One of the attractive features of the series of Chautauqua events will be the playlet "Apple-Sauce," presented during long periods in New York, Chicago, and other large cities. Outline of program in next week's issue.

CHARLES DICE IMPROVING

Charles Dice, who was very severely bitten by an infuriated boar pig on the Ursinus College farm, several weeks ago, is improving. He is still confined at Montgomery Hospital, Norristown. The pig gashed Dice in the thigh muscle of the leg. The cut was several inches long and two inches deep penetrating to the bone.

TRESPASS NOTICES

Card trespass notices for the approaching gunning season can be procured at The Independent office.

"SQUIRE WACK ARRESTED FOR

EXTORTION AND BAD CHECKS

Francis W. Wack, of Schuylkill, was arrested and committed to jail, the latter part of last week on charges of false pretense and extortion preferred by Mrs. Margaret Cummings, of 2459 North Franklin street, Philadelphia. On Monday he was released from jail upon the payment of \$60 to Mrs. Cummings and of \$10—costs of prosecution—and the forwarding of his resignation as a Justice of the Peace to Gov. Pinchot. Wack was accused by Mrs. Cummings of accepting from her \$100 as a fee in payment of checks he promised to make to obtain a parole for her son Norman Cummings, who is serving a term in Montgomery county prison for assault and battery. In a letter to Mrs. Cummings, Wack acknowledged the receipt of one hundred dollars, "as a fee given to me for the purpose of paroling your son." In the same letter Wack agreed that if he was not able to have her son paroled he would return all but ten dollars. Prior to his arrest Wack had returned \$40 of the \$100 fee for the supposed efforts to obtain a parole from officers of her son. The hearing in the case was held before Magistrate Clark, of Norristown.

With charges piling up against him, Francis W. Wack, Schuylkill, just resigned as justice of the peace, was re-arrested at 11 Monday night in a warrant issued by Magistrate Kehoe, of Norristown, on a charge of passing two worthless checks for a total of \$350 on H. H. Allebach, proprietor of a general store at Lederachville. Wack surrendered at Kehoe's office and was released on \$1,000 bail, furnished by K. Trumbauer, for a further hearing November 5.

On Sunday afternoon at 2:30 o'clock, the rededication sermon will be preached by Rev. Arthur C. Ohl, of St. Luke's Reformed church, Trappe.

SESSUI EXCURSION FROM

COLLEGEVILLE BIG SUCCESS

The Sesqui excursion on Tuesday from Collegeville and vicinity proved to be a huge success. Seven hundred and fifty persons made the trip in 11 coaches of the special. Everyone reported a wonderful time. The personnel was made up of residents of Collegeville, Trappe, Limerick, Upper Providence, Graterford, Skipack, Creamery, Evansburg, Lower Providence, Yorkes and Oaks. Over 600 persons boarded the train at Collegeville the starting point, 30 at Yorkes, 10 at Arcola and the balance, over 50, at Oaks. The Ursinus College quota was rather disappointing. The High School and the local residents made up over the quota. The guarantee number demanded by the railroad for the excursion rates was 600. The train left Collegeville at 8:15 in the morning and got back at 10:45 in the evening. The round trip fare was \$1.15 for adults and 58 cents for children under 12. The committee in charge included: From Collegeville, Dr. George L. Fouvalke, A. E. Bortz, H. D. Rushong, Howard B. Keyser, Elizabeth B. White, F. I. Sheeder, Stanley Moyer and Bernice Lee; from Trappe, Harry W. Mathieu and J. Harold Brownback; from Oaks, John U. Francis and Frank Weaver.

EXPRESS HURLED MAN FIFTY

FEET; INJURIES FATAL

Struck by the "Buffalo" express on the Reading road, a tenant at station about 7:10 Sunday morning, Frank Turner, employed on the Henry B. Ingersoll estate at Penlyn was fatally injured, dying in the Chestnut Hill hospital at 5:37 Sunday evening, without regaining consciousness. Turner's body was thrown back of the crossing watchman's "box" a distance of about 40 feet. He was found by the driver of the train and taken to Ambler. According to witnesses, Turner was riding one of the station trucks when struck. The vehicle was demolished.

AMERICANS KILLED IN STORM

ON ISLE OF PINES

A dispatch from Havana, Cuba, conveys the information that the Isle of Pines suffered severe damage in the hurricane which swept across the Caribbean on Wednesday of last week. Thirty-two persons, including 17 Americans, were killed.

SKIPPACK TOWNSHIP SITE

FOR NEW PENITENTIARY

The new Eastern Penitentiary, planned for several years to replace the out-of-date and overcrowded penitentiary at 21st and Fairmount avenues, Philadelphia, will be built on a tract of land in Skipack township. This decision was reached by the Commission at a meeting on Friday in the offices of Senator Salus in the Morris Building, Philadelphia, after more than a year of work during which numerous prospective sites were considered.

The exact site upon which the new institution will be erected was not a finally selected. Instead, the commission chose a tract of 1500 acres in Skipack township, Montgomery county, described as lying between Perkiomen creek and State Highways Nos. 197 and 270, and decided that within this tract a State engineer will be asked to select the parcel of land upon which the penitentiary will be built. The members of the commission themselves are satisfied that they have selected a location which will meet every need of the new institution, but have withheld final decision until the engineer's report is received.

THREE HURLED FROM SEDAN

IN SKIPPACK HILL CRASH

John Lukens, aged 50, of Landingville, near Schuylkill Haven, and his wife and Mrs. Muriel Kline, of North Eighth street, Philadelphia, figured in a horrible accident on Skipack hill, between Skipack creek and Meadville. The Lukens sedan was ascending the hill. Two trucks were descending the grade. The rear truck in an attempt to pass the truck ahead crashed into the sedan. The collision was terrific, and resulted in very serious injury to Mr. Lukens, and painful and serious injury to Mrs. Lukens and Mrs. Kline. All were hurled from the car. The left side of Mr. Lukens' car was crushed, one eye was probably destroyed, and a piece of his skull was torn off. Mrs. Lukens was also seriously injured, and will probably be disabled for life. Her face was very much cut by broken glass. Mrs. Kline suffered lacerations of the scalp and probable fracture of one rib. The injured were taken to Montgomery Hospital. The sedan was completely wrecked. The driver of the truck, William Hathaway, of Norristown, is confined to his home with injuries. His arrest is expected later. The accident happened at 5 o'clock, Friday evening. The injured were still confined to the Hospital on Wednesday.

ANTHRACITE COAL IS FOUND

NEAR GOSHENHOPPEN CHURCH

There is a vein of tested anthracite coal within 300 feet of the Old Goshenhoppen Church, in Upper Skifford township. The coal has been tested and found to be of a superior quality. But there is not enough in quantity in the tract to warrant the installation of any machinery to mine it and prepare it in sizes for general or domestic use. The vein has been found by the geologist, Milton H. Walters, of Upper Skifford, the discovery having been made a short time ago by Mr. Walters. The mineral was tested under his direction by competent mineralogists. The result of these tests, as well as specimens of the coal taken from the land were submitted to operators, with a view of getting financial assistance for the mining of the coal. Tests show the coal is of excellent quality but the supply is limited and the expense of mining it would be too great.

WILL OF SAMUEL S. WOLFORD

"In case of death, I wish my dear wife to have all my property, and she to take care of Grace and Earl as I did," wrote Samuel S. Wolford, late of Spring Mount, in his will, probated by the court of Milton H. Walters, of Upper Skifford, on Wednesday of last week. The will was in settling the estate. The will was written September 10, 1926.

CIVIL WAR REMINISCENCES

—BY CAPTAIN H. H. FETTEROLF

Reminiscences of the Civil War written by Captain H. H. Fetterolf on his 87th birthday:

The lapse of sixty-five years is a long stretch of time and brings many changes in every community. In looking over the population of Collegeville I have found but four persons who lived here during the time of the Civil War. They are: Abraham H. Tyson, A. D. Fetterolf, Mrs. Mary Essig and myself. A. H. Tyson and A. D. Fetterolf were small boys at that time, being but eleven or twelve years of age. I think it would be a safe guess that at least three-fourths of the present population have been born since that eventful period in our country's history. To those who were old enough to realize the horrors of war it was a great experience to have lived thru. On the 15th of April, 1861, President Lincoln issued his first call for 75,000 volunteers to serve for three months. And it is said to their lasting credit that on the 18th of April, only three days later 500 Pennsylvania volunteers arrived in Washington ready to defend the Union. This noble and patriotic band became known as the First Defenders and some time after the close of the war Congress voted each a medal to commemorate their prompt response to the call of duty.

RAMBLING AT RANDOM

BY JAY HOWARD

The writer was at the Sesqui on Saturday. We spent one full day there (10 a. m. to 9:30 p. m.) on the go every minute walking from booth to booth and building to building, about 20 miles in all—and we didn't begin to see it all. It is wonderful—don't let anyone tell you different. Some people would kick at the sight of the Statue of Liberty spitting across the New York harbor. Imagine how big the place is when there are 300,000 people (estimated by Sesqui officials) present and still the place wasn't full. The rapidity with which the whole thing was put across, the lay out and fine buildings, built in less than a year, the many wonderful exhibits, the special attractions each day, the wonderful lighting effects at night, the interesting comparisons of the progress made by our country in the last 150 years, is wonderful, thrilling and not to be forgotten for years to come—all for the price of 50 cents plus here and there a stray dime for an India side show or a hot dog. That is the writer's personal impression of the Sesqui; but of course every individual has their own view point.

ENGINE ON MORNING TRAIN

UPSETS AT ZIONSVILLE

The engine on the northbound morning train that gets to Zionville at 9 a. m., upset and rolled down over a 12-foot embankment on Thursday morning of last week. The engineer and fireman had a miraculous escape. They went along over with the engine but fortunately were not hurt and crawled out from beneath the heavy locomotive as terrified witnesses from the Zionville station and passengers from the train rushed to their aid.

HUNTING SEASON OPEN FOR

SMALL GAME MONDAY, NOV. 1

The hunting season for small game, such as rabbits, quail, ringneck pheasants, grouse and squirrel, will open in Pennsylvania on Monday, November 1, and it is estimated over 500,000 sportsmen will take the field with their guns. Monday promises to give the hunters the greatest small game opening of every variety of bird and animal life in the past five years. Rabbits are very plentiful.

TERRIFIC GALE THE CAUSE OF

WRECKAGE IN NEW JERSEY

Monday morning a terrific windstorm and cloudburst struck Camden and other sections of New Jersey and Pennsylvania damaging buildings, telegraph and telephone lines. The 1400 block on South Tenth street, in the Polish colony of Camden, was the center of the most damage. The roofs were ripped from dwellings, porches toppled to the ground, and the occupants fled in terror. In another section of the city the tornado blew down the two upper floors of a house, depositing the roof 50 yards away and dropping a piano in an adjoining lot.

FOUR HUNDRED DEAD IN

ARMENIAN QUAKE

Successive earthquakes in Armenia, lasting from Friday night until early Sunday, destroyed the greater part of Leninakan, a city of 40,000 inhabitants, and twelve thriving towns in the neighborhood, and killing upwards of 400 persons and mortally wounding hundreds of others, and rendering 100,000 homeless.

WOMAN SEATED IN TRAIN

NARROWLY ESCAPED BULLET

Mrs. Elizabeth Morgan, of Egypt road, Jeffersonville, escaped injury or death by an inch, Thursday evening, when a bullet ploughed thru the window in a car on the Norristown special to the Sesqui, whizzed by her head and imbedded itself in the seat beside her. The woman was entirely unharmed, but was completely unnerved when she realized her close call. Mrs. Morgan was a passenger on the third section of the Sesqui excursion train. It was in the outskirts of Philadelphia where the bullet was fired while the train was moving rather slowly.

COMING NOVEMBER ELECTION—REVIEW OF CANDIDATES.

Next Tuesday, November 2, the electors of Pennsylvania will choose a Governor, a Lieutenant-Governor, a Secretary of Internal Affairs, a United States Senator, Congressmen, and Representatives to the General Assembly. It is the serious duty of all qualified voters to register their preferences at the polls, next Tuesday. Those who fail to do so, for any reason aside from that of physical inability, will fail to do their part as true American citizens.

A review of Republican and Democratic candidates for Governor, United States Senator, and other aspirants to public offices, is in order:

For Governor—John S. Fisher, Republican; Eugene C. Bonniwell, Democrat. Both candidates are men of excellent personal reputations, and both are well qualified to discharge the duties of the Governorship. Mr. Fisher will not receive the united support of his party, for the reason that the excessive expenditure of money prior to the primary election, as applied to Mr. Vare, candidate for United States Senator, also, and with almost equal force applies to Mr. Fisher. Moreover, the motives which prompted some of the larger contributions to his campaign are as much open to objection as the money expended in behalf of Mr. Vare. In both instances there is represented an admixture of underlying sentiment concerning the public weal, and that baser sentiment created by a desire to enhance the selfish, personal interests of partisan politicians for profit; politicians aside from those who are in the field as candidates for office. . . . Judge Bonniwell, Democratic candidate for Governor, is recognized as a strong candidate not only because of his keen intellectual abilities, but also because of his sterling ruggedness of character and his fearlessness as a champion of the rights of all the people. There is much in the candidacy of the Judge to attract Independent voters.

For United States Senator—William S. Vare, Republican; William B. Wilson, Democrat. Mr. Vare is not a fit person to represent the people of Pennsylvania in the Senate of the United States at Washington. He is not qualified by nature, nor by intellectual capacity and training to adequately perform the duties of a Senator and a statesman. Moreover, his political record in large part reflects all that is vicious, corrupt, and baneful in the baser political activities of Philadelphia and other sections of Pennsylvania. His election to the U. S. Senate will be a distinct and reprehensible reflection upon the intelligence and moral status of Pennsylvania voters. The argument from a partisan Republican viewpoint that his election is necessary because of the endangered Republican majority in the Senate, is inherently weak and fallacious. If it means anything it means that Republican United States Senators are the only kind of Senators fitted to serve the people of the United States at Washington. Ridiculous argument. In practical application it would be tantamount to the installation of perpetual Republican political control at Washington; to a claim that Republican politicians are the chosen saints of the earth—the only ones fitted "by the grace of God" to engage in national lawmaking. Could any argument be more ridiculous?

The Democratic candidate, altogether aside from partisan political considerations, fully measures up to a high standard of U. S. Senatorial ability. His record as a member of former President Wilson's cabinet is admirable, and his entire career, private and public, is alike creditable and honorable.

The Republican and Democratic candidates for Lieutenant Governor, and for Secretary of Internal Affairs are well known and duly esteemed members of their respective parties, and no doubt qualified to perform the duties of the offices to which they aspire.

For Representative in Congress—Montgomery and Bucks district—Henry W. Watson, (of Langhorne, Bucks county), Republican; Richard J. Hamilton, (of Ardmore, Montgomery county), Democrat. Mr. Watson has with credit served this district in Congress for quite a number of years. He is capable, affable in demeanor toward his constituents, and very much of a gentleman. A large majority of the Republicans of this district who can be depended upon to sanction any Republican party national governmental policy, will be constrained to vote for Mr. Watson, who is in the habit of running true to Republican platforms and Republican undertakings in public life. But—this trip the Democrats of the district have an exceptionally well-fitted candidate in the person of Richard J. Hamilton who, to a marked degree, possesses Congressional capabilities. He is a strong man, intellectually and physically, and his character is above reproach. He has been a student of public questions affecting the weal and woe of the people of the nation, and he is a man who has the courage of his convictions and conclusions. Republicans who are not altogether in harmony with Republican procedures at Washington and many independent voters (all of whom have no personal objections whatever to Mr. Watson) will cast their ballots for Mr. Hamilton. There is ample reason why every Democrat in the district should enthusiastically support their candidate for Congress.

For State Senator—James S. Boyd, Republican; Harvey S. Plummer, Democrat. Mr. Boyd is a deservedly popular Republican. He is ambitious to make for himself an outstanding and useful record in the Pennsylvania Senate, and he has the intellectual capacity to attain his ambition, if granted the opportunity.

Mr. Plummer is likewise fitted for the office of State Senator. He is in the prime of vigorous manhood; and he is disposed to evaluate public questions and measures upon their real merits. He deserves united Democratic support and the complimentary votes that his Republican friends will cast for him.

For the General Assembly at Harrisburg: The candidates are Geo. W. Weaver, John W. Storb, and Clarence Ederer, Republicans; Thomas L. Rutter, Robert M. Lewis, and Frank G. Wile, Democrats. Minnie S. Just, of Ambler, is a candidate on the Prohibition ticket. Every candidate named is a reputable person and entitled to the confidence of voters.

An observation: Mr. Vare is expected to poll a tremendous majority in Philadelphia because of the influence he exerts upon Republicans ready to be influenced by his orders and tactics. It will require a heavy Republican vote (including, of course, many thousands of Republicans who will not vote for Vare) and an unusually heavy Democratic vote, outside of Philadelphia, to defeat him. Nevertheless, at this distance from election, Mr. Vare is hardly to be considered as an entirely "safe bet." There is revolution in the political atmosphere of Pennsylvania, but just how much revolution will be revealed when the vote is counted is now altogether conjectural.

FROM Boston Transcript: Farmer's wife—"Hiram, the tramps have robbed our clothesline again." Hiram—"How do you know it's tramps?" Wife—"Because they have taken everything but the towels."

FLORIDA LEADS RELIEF RECORDS

Heads Major Disasters of 1926. Red Cross Active in 62 Emergencies in Year.

ALSO SERVES FOREIGN LANDS

Preparedness to Cope with Great Disturbances Gives Good Results in Action.

Facing one of the largest rehabilitation efforts of its whole history, as a result of the Florida hurricane, the American Red Cross already had behind it a record of service in 62 disasters at home, up to the close of the fiscal year, June 30, 1926.

When the hurricane struck Florida with such devastation and loss of life, the Red Cross National Headquarters was just congratulating itself that a year had passed without a major disaster within the borders of the country. The destruction in Florida has been tentatively estimated by Director of Disaster Relief Henry L. Baker, of the American Red Cross, in terms of relief work ahead of the organization. This takes into account all sufferers who must be cared for.

Careful surveys by experienced authorities place the injured at 4,000, exclusive of the stricken Gulf Coast cities of Moorehead and Cleveland. Of the 1,200 injured sent to Miami hospitals, 500 were suffering with major fractures. In two other east coast communities the injured numbered nearly 1,000. The homeless were conservatively estimated at 50,000. Such figures are only vaguely estimates, and material problem which the American Red Cross is still doing its utmost to solve.

For comparison the other outstanding recent disaster, the Midwest tornado of March 18, 1925, can be described in more detail. In that catastrophe the final check showed 500 dead, 3,000 injured and 6,847 families of approximately 30,000 men, women and children rendered homeless. The final relief operations of the Red Cross were brought to a close March 15, 1926, exactly a year from the day the tornado struck the state.

So terrible did the death and destruction impress itself on the experienced Red Cross forces rushed into Florida that Chairman John Barton Payne did not hesitate to call for a relief fund from the whole country of \$5,000,000. The Red Cross considered every resource in trained personnel on the stricken region.

The New Jersey munitions explosion, in July, while terrible as a spectacle, could not compare with either of these other two disasters in final seriousness. It gave the Red Cross an opportunity for service in which Red Cross nurses treated 36 injured, and during the height of the emergency fed between 700 and 800 people driven from their homes. More than 400 cases were registered with the Red Cross after the explosion for assistance in regaining their hold on life through rehabilitation work. This latter is a regular part of the Red Cross relief operations in all disasters, and means a task continued long after the country has ceased to think of the occurrence itself.

The year has seen a new measure of disaster relief preparedness inaugurated by the Red Cross, under which a trained reserve of medical and other relief experts is constantly on call for any service. This preparedness justified itself in both the New Jersey explosion, and in the Florida hurricane. In the latter the Red Cross had at call more than 300 experienced disaster workers with a network of prepared Chapters all over the country. This preparedness, constantly demonstrated, is cited as material assurance that the country is better protected today than ever before from the suffering such misfortunes engender.

Bad as were domestic disasters in both the last fiscal year and recent months, some of those abroad in the same time have been comparable, especially a flood in Mexico. Altogether the American Red Cross served in the name of the American people in more than 15 foreign catastrophes. The Tenth Annual Roll Call for membership to maintain such activities will be held from November 11 to 25, and is an opportunity for all to enroll themselves in the American Red Cross.

Riches From Jungle
Deep in the jungle of the Colombian republic, South America, where there is a rainfall of 900 inches a year and an average temperature of 90 degrees, two American-made dredges extract platinum from the bed of a river.

Future Possibilities
Perhaps the future lies with smaller groupings of population—big enough to be sociable and amusing, small enough to let everyone have sufficient fresh air, sunlight and room to stretch.—Collier's Weekly.

Marvelous Human Eye
The eye is the first circle; the horizon which it forms is the second, and throughout nature this primary figure is repeated without end. It is the highest emblem in the cipher of the world.—Emerson.

Utmost Accomplished
Our part is to choose out the most deserving objects, and the most likely to move the ends of our charity, and when this is done, all is done that lies in our power.—Atterbury.

Food Staple Depends on Irrigation Work

Among the staple foods raised in Central American regions is one that is almost daily on the tables of rich and poor; this is the garbanzo, or chick-pea. They are successfully grown also in the state of Sonora, Mexico, on the alluvial plains near the mouths of the Mayo and Yaqual rivers, where the altitude is but little above sea level, although they are also grown farther inland at altitudes of 800 feet, more or less, and with more or less success.

The plant is very tender and subject to injury by frost. During the growing season the temperature ranges from 70 degrees Fahrenheit to the freezing point. At planting time, in October, it ranges from 50 to 90 degrees Fahrenheit. The average rainfall in the garbanzo region in the Yaqual valley is nine inches and in the Mayo valley thirteen inches. No rain falls during the growing season of this crop, and the growers depend entirely upon irrigation, for the rains begin in July and end in October, just before the first planting begins.

The garbanzos are harvested in May, when the plants are pulled up by hand in the field and turned over so they will dry thoroughly. They are then carried in bunches to central points in the fields where a threshing floor has been made on smooth beaten ground.—Charles Bell Emerson in Adventure Magazine.

Brown Prouded Quite Unable to See Joke

Two bachelors, Smith and Brown, were seated in the flat of the latter. Smith—Would you like to know the name of your future wife? Brown—What would that be? "Well, I'll guarantee to tell you her name by arithmetic."

"That's impossible." "Well, you take a piece of paper and work out this sum: Write down the year in which you were born, subtract the last two figures from the first two. Now multiply what remains by the date of the month in which you were born. Divide your answer by two, and tell me the result."

Brown, after a lengthy struggle and much thought, at last works out the problem and hands his friend the result. Smith—Now these figures obviously indicate that the name of your future wife will be Mrs. Brown.

Brown and Smith are no longer friends.

Roads Laid Out by Animals

There is an idea becoming current of late that none but a man of science, bred in a school, can lay off a road. This is a mistake. There is a class of topographical engineers older than the schools and more unerring than the mathematicians. They are the wild animals. They travel thousands of miles, have their annual migrations backward and forward, and never miss the best and shortest route. These are the first engineers to lay out a road in a new country; the Indians follow them, and hence a buffalo road becomes a warpath. The first white hunters follow the same trails in pursuing their game, and after that the buffalo road becomes the wagon road of the white man, and finally the railroad of the scientific man.—Senator Benton of Missouri.

Pay Your Debts

Always pay; for, first or last, you must pay your entire debt. Persons and events may stand for a time between you and justice, but it is only a postponement. You must pay at last your own debt. . . . He is great who confers the most benefits. He is base—and that is the one base thing in the universe—to receive favors and render none. In the order of nature we cannot render benefits to those from whom we receive them, or only seldom. But the benefit we receive must be rendered again, line for line, deed for deed, cent for cent, to somebody. Beware of too much good staying in your hand. . . . Pay it away quickly in some sort.—Emerson.

Slip Into It

She sank on the sofa in her room with a sigh of intense weariness. "I'm very tired," she said to her new maid. "Bring me something I can slip into." "O! will that, ma'am," said the colleen from Connemara. After a rather long interval the maid returned bearing a tray on which was a thick steak, some fried onions and a bottle of stout. "Now just be after slipping into that, mum; it'll do ye good," she said.—London Tit-Bits.

Well-Meant, but Ill-Timed

A physician had been called in to treat the spoiled child of a certain family. After his departure the mother returned to the room and told the youngster that the doctor had complained that the child had been very rude to him. "Why, mother," replied the kiddie, "he's just an old fog, that's all! He got mad because I put my tongue out before he told me to."

Reasons for Failure

The "small" man remains small by reason of his own shortcomings, not because of the persecution of others. We too frequently go far afield to learn the reasons for our failure, when all we have to do is to look around a bit at home.—Grit.

Famous Chairs

One of the most beautiful chairs in the world is the chair of Dagobert, king of the Franks, who died in the year 638. It is made of cast and chased bronze of very fine workmanship. But St. Peter's chair at Rome is said to be the most ancient and interesting piece of furniture in existence.

Composition of Tinfoil

Tinfoil is thin sheets of tin, the metallic element. It is beaten thin with a wooden mallet. Leadfoil is made of lead. Both are used for wrapping purposes, but tinfoil is the more common. "Foil" in such compounds literally means leaf.

Early Royal Signature

Who was the first British king to sign his name as distinguished from the mere marks formerly used?—The earliest record is a letter signed by King Richard II, granting to a prisoner near Bristol a tun of red wine every Christmas!

Botanical Curiosity

An extraordinary geranium, christened "Peppermint Bull's-Eye," was exhibited in London recently. Thick velvety leaves give out a strong scent of peppermint, while the flower itself, of a pale mauve color, has no scent at all.

FARM CALENDAR

Help Pullets Lay Early—Pullets undergo four complete molts from the time they are hatched until mature enough for laying. If allowed to complete all of these molts before being housed, they often are thrown into an additional molt when placed in the laying quarters. When put in the house while the last natural molt is incomplete, the additional molt is avoided.

Many Prizes for Exhibitors—More than seven thousand dollars will be awarded in prizes to exhibitors at the Eleventh State Farm Products Show in Harrisburg, January 17 to 21. Get a premium list from the county agent, the State Department of Agriculture, or the State College Agricultural Extension Service next month, and enter some of your best products.

Save Seed from Good Yields—Have you saved seed from the crops which yielded the best and highest quality products the past season? Do not lose a good variety when you have it within grasp. The best is none too good for any tiller of the soil.

Attend to Houseplants—Houseplants will soon need attention. Dig up those which have been transferred to the garden during the summer months and pot them in good soil. Provide a good place for your indoor garden in a sunny location and supply the plants with plenty of moisture. Ferns brought from the greenhouse now will become acclimated to the atmospheric conditions of the house better than those brought in midwinter.

Red Cross Volunteer Workers Ever on Duty

Claim for the oldest volunteer knitter in the country is advanced by the Lincoln County Chapter of the American Red Cross at Wiscasset, Maine. She is Mrs. L. A. W. Jackson, who keeps busy knitting stockings for the Red Cross to send to destitute children abroad. The San Pedro, Calif., Chapter has a close second in a volunteer knitter 85 years old.

The annual report of the American Red Cross stresses the services of volunteers. In more than 3,000 Red Cross Chapters the officers and workers are volunteers.

They will act as solicitors in the Tenth Annual Roll Call for members, which the Red Cross will conduct from November 11 to 25.

Nearly 30,000 disabled veterans are assisted by the American Red Cross on an average every month. Care of the disabled veteran is a foremost responsibility of the Red Cross, in which the people can share by joining its ranks during the Tenth Annual Roll Call, November 11 to 25.

The American Red Cross is the official agency of the United States for disaster relief at home or abroad. Join during the Tenth Annual Roll Call from November 11 to 25 and share its services.

THEY ALSO SERVE

By H. M. EGBERT
(© by W. G. Chapman.)

AT FIFTY Hilda Malnarwing was accounted the prettiest woman in the town, and her son, Walter, was said to be the image of his father, by those old enough to remember the late general, Augustus Malnarwing had fallen in love with the beautiful village belle while on a visit from England to the United States. He had married her and taken her to England to live. After his death she had returned to her native country.

At school Walter was twitted by his friends with being an Englishman. When he was twenty-one the vexed question of nationality could be decided. Most people thought that that choice would be made, next year, in favor of America, on account of pretty Miss Agnes Latham. Village gossip coupled together the names of the bank president's daughter and Walter.

It would be an ideal match. She had money; the Malnarwings lived decently enough, they were not supposed to be rich, and were, of course, of good family. After leaving the high school, to every one's surprise, instead of entering college Walter accepted a position in the bank. At that heads were wagging knowingly. The reason 'did not seem an astruse one.

And then, like a bombshell, came the news that war had broken out in Europe.

Walter Malnarwing, reserved by nature, had told nobody of his secret dream one day to emulate the exploits of his father, who had won the Victoria Cross in the Sudan for heroism. Perhaps he had, looking at the matter in a common sense way, decided that the realization of his dreams was impossible.

On the evening of the declaration he walked home from the bank with his mind made up. England was calling for soldiers; it was said to be the duty of every able-bodied man to enlist. How much the more his, then, with his father's record behind him!

Practical that he was, Walter Malnarwing went straight to Miss Latham's house, because it was the nearest point of call to the office.

"Isn't the news dreadful, Walter?" sighed Agnes, after greeting him with an unusually warm handshake.

Walter plunged abruptly into the subject that occupied his thoughts.

"Agnes, I am going to England to enlist," he said.

The girl looked keenly into his face. Was he joking? But it was unlike his serious nature to joke in that way. Yet it seemed horribly unreal, in the little peaceful village; War, shots falling, and Walter in the thick of it. She caught him by the hands.

"What do you mean, Walter?" she cried.

"England wants every man," he answered. "You know my father's record, Agnes. It would be expected of me."

"But when are you going?" asked the girl, stricken almost speechless by the thought.

"Tomorrow," he answered.

That was all, but it was a fortunate thing that there had never been any love-making between them. Agnes felt that she had no excuse for tears—except in her own room; for reproaches, except perhaps dim feelings that he had wronged her.

She had loved him, and had awaited the time when he would be able to declare his love. She thought he had gone into the bank instead of to college so as to bring that time nearer. Perhaps he had. Walter Malnarwing did not wear his heart upon his sleeve, however, and nobody knew.

The next house he came to was that of the bank manager. The president, Agnes' father, was away on a business trip. Walter had not been able to catch Mr. White at the bank. So he took the most direct route; he went to his house.

"I am going to give up my position, sir," he said. "I am going to England to enlist."

"Good Lord!" said Mr. White, staring at the young fellow. He did not know what to say.

"I suppose it is because of your father, Walter?" he asked.

"Yes, sir," answered Walter.

"You don't think you are doing wrong?" asked the manager. "Your father—well, your mother—she is all alone, you know."

"I don't think my father would have wished anything else, sir," said Walter; and Mr. White said nothing more.

Privately, of course, he thought him a fool, and he would not have hesitated to say so to most young men; but Walter always won respect, even where he did not gain sympathy.

He went straight home, and his mother was waiting for him at the door, as she always did. Walter kissed her.

INSTRUCTION IN RED CROSS FIRST AID SAFETY FACTOR

Its Industrial and Educational Service Spreads Throughout the United States.

Signs that the United States is awake to the menace of its increasing accident toll are apparent in the growing interest in first aid instruction as offered by experts of the American Red Cross.

Approximately 20,000 Juniors and seniors completed the First Aid course during the fiscal year, passed rigid examinations and received Red Cross First Aid certificates. This represents an increase of 2,500 over the preceding year, and this gain is attributed to the emphasis on health education by various public bodies including not alone the American Red Cross and Government agencies, but life and accident insurance companies, and athletic and recreational groups.

In Dallas, Texas, playground supervisors are required to hold First Aid certificates. In many high schools the subject is included in the regular curriculum. In order to assist in training instructors for this phase of the work, special courses have been conducted in the summer schools of such leading institutions as the University of Maryland and the University of Virginia. Instruction was continued during the year at Loyola University, New Orleans; Calaverly of California, San Francisco; University of Kentucky; Temple University, Philadelphia; Peabody Teachers' College and similar educational centers.

Work with the public utilities group has shown an exceptional increase during the year. Classes conducted by fourteen of the associated Bell Telephone companies were continued with increased interest and a number of the companies sponsored intensive courses in First Aid for instructors.

The First Aid Instruction Car of the Red Cross was busy throughout the year. In the 125 cities visited by the car 900 meetings were held with an aggregate attendance of 94,000 persons.

Membership of the people in the American Red Cross makes such services possible, the annual opportunity of pledging support through membership being offered in the Roll Call from November 11 to 25 this year.

Chimney All That Is Left of Historic Spot

The spot where the military forces of the Union finally triumphed in the Civil War is marked today by a memorial arch and a lone, bare chimney, the chimney that once graced the log house of Leo Lorna Bennett. It was in this dwelling, four miles west of Durham, N. C., that Gen. Joseph E. Johnston, Confederate leader, and Gen. William T. Sherman, the Federal leader, met and signed the terms of surrender that ended fighting east of the Mississippi, says the Raleigh News and Observer.

The Bennett house stood until the autumn of 1921, when it was destroyed by fire, only the rock chimney remaining. Bennett, a Confederate soldier, last his life in the war. The house was occupied by his widow and children until the time of the negotiations between Johnston and Sherman.

Rose Water as Beverage

According to Pliny, wild rose leaves reduced into a tincture with bear's grease makes the hair grow again in most marvelous fashion. Pliny also recommends "ashes of roses as serving to trim the hairs of the eyebrows." Roses figured prominently in certain old-time strong drinks, such as rosa solis, which consisted of rose water mixed with aqua vitae and flavored with cinnamon. The favorite morning draught among Elizabethan roysters was "rosa solis, to wash the moulgrubs out of a moody brain."

Lightning's Distance

One can tell quite accurately how far away the flash of lightning is by taking a watch and noting the number of seconds which elapse between the flash of lightning and the time when one hears the roll of thunder. If as much as five seconds elapse it is about a mile away, since sound travels only about 1,100 feet per second, and there are 5,280 feet in a mile.

Had Right to Be Proud

A youth, who had the reputation of being a ne'er-do-well, obtained a job as an errand boy in an architect's office. His mother was very proud of the fact, and went about the neighborhood boasting about her son in an effort to erase the general impression of him. "John's got a very good position," she said proudly to a neighbor. "He draws plans for houses. He's an architect, you know."

Mountain Vegetation

Lemon and orange trees grow on Mount Etna to a height of 1,500 feet up the mountainside. Above these trees is a zone which rises 1,500 feet. Vines, olives and figs flourish here. From this extends a zone rising to a height of about 6,000 feet, which is a wooded region. Here are oaks, beeches, birches and chestnuts. Above is the bare mountainside.

Biblical Dates

The approximate dates of the happenings recorded in the Bible were fixed after long and careful study by historians and scientists. The letters B. C. mean before the Christian era, and the letters A. D. signify Anno Domini, meaning the beginning of the Christian era. There are plenty of evidences that these dates are approximately correct.

NEWS FROM OAKS

Coach Kichline's Ursinus Bears traveled to Swarthmore Saturday and lost to the Garnet combination by the score of 6-3, in an exciting game of football on a field that resembled a sea of mud. Despite the bad field conditions the Bears made several long runs which thrilled the 2000 spectators who sat in the drizzling rain and watched the battle.

Ursinus started the game with a rush that carried everything before it. The ball was advanced to mid-field by W. Moyer from Castle's punt. Jeffers on the next play held the stands spellbound when he slipped around right end for a run of 40 yards. This was the longest run in the game and was a spectacular feat considering the bad condition of the field. Ursinus opened the scoring a few minutes later when they again advanced the ball to the Swarthmore 12 yard line. Schell dropped back and kicked a beautiful placement which accounted for the only points that Ursinus collected in the game.

Swarthmore in the second period received their only tally of the game. Unger recovered a fumble on his own 35 yard line. By a series of short passes and line plunges they carried the ball to Ursinus 5 yard line. Dutton went through tackle for the touchdown.

Ursinus rushed Swarthmore off its feet in the first period. The Bears should have scored a touchdown three minutes after the game began, but lacked the punch with the ball on the 10-yard line. After Swarthmore punted Ursinus again came up almost to the ten yard line only to be repulsed. Schell then dropped back and kicked a pretty goal. In the second period Swarthmore recovered on Ursinus fumble on the 38-yard line. From there they worked down the field for a touchdown. The rest of the game found the teams equally matched in mid-field, each side punting frequently. W. Moyer held a slight edge over Castle, the Garnet booter.

NEWS FROM OAKS

Before a small crowd of rooters the Red and Gold colors were forced to bow in defeat to their ancient rivals from East Greenville in a hard fought battle last Friday afternoon on the local athletic field. Coach Moyer's proteges losing to the tune of 12-7.

It was the annual gridiron classic between these two high schools and this year's game was no exception as to the amount of fight and grit displayed. Collegeville led off and drew first blood when Captain Horrocks on a fake punt formation went around left end, eluding all his tacklers and racing 85 yards for his team's only score of the game. Previous to this "Mutt" Undercoffer had narrowly missed a field goal from the 30-yard line.

In the third period East Greenville launched an aerial attack which caught the local lads unaware and made possible two touchdowns. The ball was brought within scoring distance on passes each time. Belter made the first by hitting center for 10 yards. A pass, hitting to Gehart tallied the second touchdown. Eppler, who forward passed for the up-country eleven failed at both tries to add the extra point by means of a pass to a teammate.

This Friday afternoon the Collegeville team expects to break into the win column by means of a victory over their Schwenksville foes. The game will be played at Schwenksville. A desperate aerial attack in the last period by Collegeville failed to bring any home team score.

Ursinus Freshman Banquet, President Kidnapped

The annual Ursinus Freshman Banquet was held at the Ritz Carlton Hotel, Philadelphia, on Monday evening. The Freshman president, Paul Cherin was kidnapped by their rival class the Sophomores on Thursday evening and held a prisoner at an unknown place so that he would be unable to attend the big banquet—an annual custom at Ursinus. The Sophomores showed fine school spirit however by releasing him from his secret hiding place on Saturday in time to take part in the Ursinus-Swarthmore football game. Cherin is a star half-back on the Ursinus varsity football team. His absence caused the coach and football followers of Ursinus to go into hysterics until he was released on Saturday morning. The Freshmen made the trip to the Ritz in three bus busses. They had considerably difficulty in getting away as some

near Fredericksburg, Va., December 29, 1862. Samuel Freas and John Springer were wounded. William, Henry and Peter Undercoffer were brothers. Benjamin Undercoffer was of another family but was also one of three brothers who served during the war. In addition to those twenty-two men who responded to the President's call, there were six others from the same community who answered the call of the Governor for troops to repel the invasion of the State by General Lee's army. They were Daniel Gross, William Worrell, Jacob Poley, Horace M. Hunsicker, Adam H. Fetterolf and Rev. Jared T. Preston.

The average age of enlisted men in the Union army was twenty-two years and embraced volunteers from every condition of our industrial life. Forty-eight per cent were farmers, twenty-four per cent were mechanics, sixteen per cent were laborers, five per cent commercial pursuits, three per cent professional men and four per cent miscellaneous. Under the able and inspiring leadership of the great war Governor, Andrew G. Curtin, Pennsylvania responded most nobly to the Union cause—furnishing 337,936 soldiers, sailors and marines.

It may be of interest to state that there were one hundred and twelve battles in which one side or the other lost over five hundred men killed and wounded and in all there were eight hundred and eighty-two general engagements, battles or skirmishes in which at least one regiment was engaged. From the foregoing facts one need not wonder why the loss of life was so enormous. The war ended more than sixty-years ago and the ranks of "the boys in blue" who saved the Union are thinning very fast. Two of the honor roll of the Sixties survive. Benjamin Undercoffer, of Norristown, and myself.

Special RADIO Offer

With every complete radio set sold or ordered from our store on or before November 20th we will include free of charge one of our beautiful bridge lamps. This offer does not include second-hand sets or trade-ins. This offer holds good on every new five-tube set we sell. Our object in doing this is principally to get the buying public to avoid disappointments and to get the best value for their money. We have been the case heretofore around the Christmas holidays. We are also agents for the famous "Philco" A and B eliminators. Ask about our trade in offer and we will cheerfully give you any prospect a free demonstration in their own home, putting them under no obligation whatsoever.

Young Wife Afraid To Eat Anything

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (signed) Mrs. A. Howard. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Removes old waste matter from intestines which you never thought of. Masters system. Excellent for obstinate constipation. O. C. WINKLER, Druggist, Collegeville, Pa.

Sophomores poured water into the bus gas tanks when the drivers weren't looking.

RAMBLING AT RANDOM

(Continued from page 1)

The writer was at the Sesqui on Saturday, had his picture taken and also his watch. We are running the picture in the Rambling column this week as we think many of our readers who have been following the column would like to know what Jay Howard, the writer, looks like.

JAY HOWARD AT THE SESQUI

P. S. The agricultural building is to the rear. The officer in uniform to the left with back turned was later identified as Constable Earl Brunner, of Trappe.
