MEMORIAL DAY
A day made sacred by the tender ties of love, of duty—and self sacrifice. When valiant souls gave all they had to give—

Life in its prime that liberty might live. A mighty Nation on this day of days Above its honored dead breathe words of praise.

Praise for their deeds, while lovingly we bring The fragrant blossoms from the heart of Spring.

We place them on each soldier's hallowed grave Who sacrificed his country's cause to save, While gratitude the fairest flower of all Exhales its sweetness as the tear drops fall.

We read the story of the vanished years, Defeats and victories—of toll and tears, Of men who won our glorious liberty, And men who died to keep our Nation free.

Our heroes sleeping under foreign skies Where poppies blow—did freely sacrifice! The gallant men who march along today Have borne the burden of the battles fray.

MRS. HENRY ARMSTRONG.
Dorchester, Mass.

Contractor Sets August 1 Date for Reopening of Highway; Completed from Lakeside Inn to Beyond Harry's Place

With approximately 12,000 square yards of concrete already poured in the construction of a third lane of Benjamin Franklin highway from Pottstown to Limerick, officials estimated the project would be completed and the highway opened about August 1.

During preparatory work, one bridge was built about 200 feet west of the present three lane road at Limerick, four grades were lowered, and the road alignment changed noticeably at two points to eliminate curves.

The top of Rahn's hill was cut down about three feet, the east side of Sanatoga hill was lowered two and a half feet and the west side of Sanatoga grade slightly above Sanatoga grange hall lowered three feet.

Bridges over Spregel's Run at Sunnybrook and at the bottom of Sanatoga hill were not disturbed.

WHAT ABOUT PARK AVENUE?

The much debated and often condemned Park Avenue seems to have taken on a permanent outlook of "washboard avenue." Though it is now a state project it is debatable when the residents who use that thoroughfare will get relief from a public street which defies motor vehicles to travel safely.

Relief from such a deplorable condition is certainly desirable to everyone travelling the Collegeville-Yerkes distance because a better street would cut a considerable distance from the route which is now directed along Second Avenue and over the hazardous railroad bridge. This bridge is so narrow and the approach so steep that it is a constant source of danger, especially from strangers travelling along that route.

Whatever the means of relief there will be votes of thanks from many when the whole situation is alleviated.

IF GERMANY STRIKES OIL

Unexpected things often change the course of history. History is in the making in Europe today, with Germany playing the role of history-maker. There seems no doubt that the ultimate objective of the Hitler government is to obtain control of all Eastern Europe, clear to the Black Sea. What puzzles many Americans is the motive behind this tremendous drive for more territory.

The answer is—oil! The one essential natural resource which Germany lacks but which Rumania and other Black Sea nations have is oil.

Now Lord Rothermere, the great English newspaper publisher, returning to London after a visit to the United States, reports in his paper that a great American oil magnate told him that his company had discovered an oil field of vast extent right in western Germany, close to the city of Hamburg. The report is not verified from German sources, but if it is true, as Lord Rothermere believes, it might easily have the effect of checking Hitler's eastward aggressions.

With oil reserves right in their own dooryard, and the possibility of supplying not only their own fuel needs but those of their near neighbors, the Germans would have a source of income which would relieve their economic stress, and would lose their last excuse for attempting the conquest of eastern Europe.

NEWSPAPER ADVERTISING IS BEST BUSINESS GETTER

Newspaper advertising is one of the principal factors in obtaining increased business for the electric and gas utilities, according to Geo. E. Whitwell, vice-pres. in charge of sales of the Philadelphia Electric Company, who spoke Saturday at the Hotel Adelphi before the Montgomery-Bucks Newspaper Association.

Mr. Whitwell pointed out that, contrary to usual opinion, the utilities are in a highly competitive business. Since they must make their principal appeal to the general public in expanding their sales, the newspapers furnish the best medium, he said, for this part of the sales activity.

"Nothing is further from the truth than the oft-made statement that a utility has no competition," he said. "Utilities have very definite competition in almost every field of their activity."

Ursinus Musical Organizations Will Present "Mikado"

The delightful Gilbert and Sullivan operetta, "The Mikado," will be staged by the combined musical organizations of Ursinus College on June 3 and 4 as a part of the Commencement week-end.

The story is built around the love-life of a banished Japanese prince, Nanki Pooh, who disguises himself as a wandering minstrel, and promptly falls in love with lovely Yum Yum. But the pretty maid is already engaged to the Lord High Executioner, Ko Ko.

Originally scheduled for presentation on February 12, the production was postponed because of the illness of several members of the cast.

Dr. William F. Philip is musical director, and Miss Florence Bechtel, of Collegeville, is dramatic director. Dr. Reginald S. Sibbald is directing the staging of the production.

RAMBLING AT RAMDOM

elect of the Ursinus College football squad for 1938. Todd was appropriately crowned, but there were indications of stress and strain here and there at the seams.

In fact, all those in the program wore the costumes that were in use at the regular May Day pageant of the girls, when Muriel Brandt was crowned queen of the May. The characters included Little Bo Peep, Mistress Mary Quite Contrary, Three Little Pigs, and others from the Mother Goose dramatic personae. The whole cast was masculine and leaped rather on Johnny Knoll's side of daintiness.

John Porambo, the 1937 football captain, put on a solo scarf dance that nearly brought down all the houses in the neighborhood.

Pennsylvania Wakes Up

The outstanding lesson taught by the primary election in Pennsylvania is the acute impatience with radicalism and waste that has come over an immense section of the electorate since the Roosevelt sweep in 1936.—North Penn Reporter.

Not Politics of Course

Then there is the big shot who was telling the boys "And as soon as I discovered the business was dishonest, I got out of it." Whereupon one of the listeners inquired, "How much?"—Town and Country, Pennsylvania.

We see by the papers that the dairy farmer took another kick in the pants on the price of milk. The new price is now \$3 per 100 for class A milk—less 25c freight. That is the farmer gets \$3.00 (or \$2.75 to be exact) if his milk comes up to the requirements in butter fat (4%). As there are 46 1/2 quarts in a 100 lbs. of milk this means the farmer gets less than 6 cents a quart.

But that isn't the sad part of the farmer's story. He receives this top price of \$3.00 per hundred (less 25 cents freight) for only about 60% of the milk he ships. According to the "utilization plan" now in operation (which took the place of the old basic-surplus plan) the farmer's total production of milk is divided as follows: 60% listed as First Bracket—\$3.00 less 25c freight, if and whereas it tests 4% fat; 25% as Second Bracket—\$2.00 less 25c freight if 4% fat test; remaining 15% as Third Bracket—\$1.70 less 25c freight, if 4%.

In other words the big milk combines claim the farmers ship them too much milk; but rather than reject the surplus, they take all that he sends. And what they can sell in bottles (60%) they pay top price for; of the remainder (about 25%) which they can use for cream and butter they pay one third less (which makes cream and butter so cheap); and the Third Bracket or remaining 15% is used up in ice cream and cheese, a by-product—made just to use up the milk.

Personally, we would like to make a "utilization" bargain with the milk trust * * * pay 12 cents for the first two quarts which Pop and the kiddies drink; 8 cents for the next quart which Mom uses to make gravy and mix in with the mashed potatoes; and 6 cents for the last quart which gets used for desserts, shmeer case and such.

WILL POWER ELECTED URSINUS BASEBALL CAPTAIN

Bill Power, sparkling second baseman of Jing Johnson's league pennant contenders, was unanimously elected captain of the 1939 diamond squad last Saturday. Power's election was a fitting climax to his sensational play of the past season. His flawless playing at the keystone sack and his potent bat at the plate were big factors in the success of Johnson's 1938 winning diamond edition.

A scrappy spark plug in the middle of the diamond, Power will lead an all veteran team in next year's pennant drive. The captain-elect is a native of Doylestown, Pa., a 3-letter winner at Ursinus and was recently acclaimed by Coach Johnson as the most improved ball player he has had in college ranks.

HONORING

Our War Dead
and Their Living
Comrades

America is a nation interested only in the conquests of peace. Yet, in our country's short history millions of our best sons have had to face the dangers and sacrifices of war.

We pay reverent tribute to the valor and patriotism of our soldiers, living and dead. At the same time, we give our solemn pledge to our youth of today, to work unceasingly for the cause of peace, so that their lives and their talents may be used to build civilization—not to tear it down.
