Community Club Enjoys Dutch Art

Mrs Donald Hefferich Talks on Early Pennsylvania Dutch Customs, Dialect and Sewing

Members and guests of the Community Club enjoyed a splendid talk on Early Pennsylvania Dutch Art given by Mrs Donald Hefferich on Tuesday evening in the Hendricks Memorial building. It was most instructive and Mrs Hefferich further delighted the audience with an original skit, typifying the conversation of a Pennsylvania Dutch woman of several years ago.

An extensive display of pottery, china, Tole ware, hand-woven coverlets and several fine old quilts illustrated the use of the religious symbols peculiar to the art of these early settlers in Pennsylvania and added greatly to the interest of the talk.

Coffee and shoefly pie were served by the hostess committee with Mrs Ruth Seip as chairman for this meeting.

At the business meeting, Mrs George Hartzell, president, explained the functions of the newly-formed Community Council, and the club voted to cooperate in this plan. Mrs Hartzell was chosen to represent the club at community council meetings.

Mrs Frank Clamer, chairman of the Ways and Means committee, announced a 3-act play to be presented in January.

The marriage of Miss Ruth Rivlin, daughter of Mr and Mrs Reuben Rivlin of Pottstown, and Sergeant Morton Schonberger, son of Mr and Mrs Nathan Schonberger of Collegeville, took place on Sunday in the Mercy and Truth Synagogue, Pottstown, at 3:30 p. m.

The Rabbi Emil Schorsch, assisted by the Rev Harry G. Blatt, performed the ceremony. A cousin of the bride, Mrs Max German, of Milwaukee, Wis., sang several numbers accompanied by Elwood Schmeier at the piano.

The bride, given in marriage by her father, was attired in a white faille gown with full skirt and short train. White flowers were applied on the bodice, a beaded tiara holding her finger-tip length veil in place. She carried a crescent bouquet of white chrysanthemums.

Miss Freda Socket of Phoenixville as maid of honor, chose a powder blue gown with sweetheart neckline and flared skirt. Her bouquet was of pink carnations.

Bridesmaids were Mrs Lillian Zimmerman and Miss Anna Schonberger, both of Collegeville, sisters of the bridegroom. They wore similar gowns and carried Chinese rust chrysanthemums. Blue horse-hair bows and shoulder length veils completed the costumes of the attendants.

Sgt Norman Dunitz of Reading served as best man. Ushers were Sydney Sacks, Cedars, and Joseph Rivlin, brother of the bride.

FARMERS TO CHOOSE AAA REPRESENTATIVES TUESDAY

Farmer committeemen who will have important roles in war and post-war farm problems will be named at annual AAA elections in Montgomery County November 21, according to an announcement by County Chairman Alvin K. Rothemberger.

Farmers will choose three committeemen for each community, and delegates from these meetings will later name three county committeemen and alternates. Among subjects to be discussed at the meeting will be problems facing our farming in the year ahead and the post-war years, and the policies that AAA should carry out in doing its part of the job in meeting those problems.

Committeemen represent both their neighbor farmers and the executive of the Federal government in the work and responsibilities of the Agricultural Adjustment Agency. Their recommendations, based on personal knowledge and experience, help shape agricultural programs to fit the needs of their own localities and to meet the problems of farmers and consumers throughout the Nation.

The election meetings will give local farmers a chance to consider the problems and the demands of the coming year.

In emphasizing the importance of full attendance at the election meetings, Mr Rothemberger quotes N. E. Dodd, national AAA Chief:

"These elections, much the same as local school elections and like the town meetings of other days, constitute real democracy in action. With the approach of peace, AAA elections take on a new significance. It is more important than ever to have the best men available on AAA committees. The solving of farm problems at this stage of the war, and those that face the nation from here on out will require the best possible leadership and the full participation of farmers."

The election meeting will be held at the AAA Office, Public School Building, Fifth Avenue, Collegeville for the farmers in Lower Providence and Upper Providence Townships; Limerick Fire House, Limerick; for the farmers in Limerick and Perkiomen Townships; Community Hall, Center Point, for the farmers in Skippack, Worcester, Whitpain and Upper Gwynedd Townships. Elections are held in each district at the same time—November 21, at 8:00 p. m.

Sixth War Loan Opens Here Monday

Collegeville Area Quota \$201,600 With Howard C. Shallcross, Graterford, Again Heading Drive

The Collegeville district must raise \$201,600 in the Sixth War Loan drive which opens Monday to meet its quota and keep the record of the district in the 100 percent club, according to Mr Howard Shallcross, Graterford, who again heads the force of volunteers in local and nearby areas. Shallcross, president of the Collegeville National Bank, served as chairman of previous drives here.

Montgomery County's quota has been fixed at \$19,833,000—including a quota of \$5,000,000 to individuals. The county quota has been easily met in past campaigns except that the E bond quota has fallen short on several occasions. Corporation sales are expected to net \$7,983,000 with sales to individuals of other than E bonds at \$6,850,000. Ernest V. Hunter, Pottstown manufacturer, is the county chairman.

The state chairman for the Sixth War Loan drive said, "... the Treasury needs 16 billion dollars from the 6th War Loan drive to carry it until March 1945."

The Schwenksville quota has been set at \$105,000. Royersford has been asked to purchase bonds to the amount of \$218,000 to meet its quota. Other amounts for nearby districts are: Worcester, \$37,800; Upper Perkiomen, \$294,000; Norristown-Bridgeport, \$3,696,000; and Pottstown, \$3,360,000.

BLOCKED KICK GIVES BEARS 2-0 WIN OVER F. & M. HERE

On Saturday afternoon, with a large crowd on hand and perfect football weather at Patterson field, Ursinus celebrated Old Timers' day by nosing out their traditional rivals, Franklin and Marshall, 2-0, to avenge a 26-0 defeat earlier in the season at Lancaster.

F & M kicked off to start the game. After an exchange of punts the Bears recovered an F & M fumble on the midfield stripe. They drove to the Diplomats 20 but there the attack bogged down when F & M recovered a fumbled lateral.

Later in the first quarter a beautiful kick by Wickerham went out of bounds on the F & M 3 and put the boys from Lancaster deep in their own territory. Butch Lee, F & M fullback, kicked out of danger for the time being.

Ursinus Makes Only Score Early in the second quarter, F & M, with the aid of a 15-yard penalty, had their backs to the wall again. It was here that the only score of the game was made. F & M was forced to kick from their own 10.

Big Joe Topper, recent V-12 transfer from Penn, broke through to block the kick. The ball bounded out of the end zone automatically giving Ursinus a safety and a 2-0 lead. Ursinus kept the play in F & M territory throughout the half with Wickerham having a slight edge over Butch Lee in a punting duel.

The second half saw the action see-saw back and forth with F & M slightly outplaying the Bears. Sparked by the passing and running.

with JAY HOWARD

The Collegeville-Trappe Parent-Teachers Association conducted a pertinent panel discussion on the subject of "World Organization for Peace" at their monthly session in the C-T gym last week. Rev Russell Zimmerman, Prof John Helleman and Postmaster Clarence W. Schuren, the latter an overseas veteran of World War one, presented the topic and the audience joined in an interesting discussion.

It was agreed that everyone the world over wants Peace; but there agreement ended. The methods of obtaining Peace vary with the individual. There have been strong empires, social reforms, treaties, alliances, even "wars to end wars," but all have failed in the light of history. The problem is deeper than these methods reach. Every conflict grows out of selfishness, hatred and fear. These stem from individual men and women. Since nations are but a composite of individuals — selfishness, hatred and fear must be eliminated from the individual before we can hope to end war. World courts, disarmament treaties, alliances, etc., can postpone war but can not stop the inevitable. As long as individuals fight, nations will fight. And we in America might as well govern ourselves accordingly.

AAA COMPLETES 10-YEAR STUDY OF MILK, FEED PRICES

The Pennsylvania State AAA Committee has just completed a ten-year study of milk and feed prices to determine if the AAA dairy feed payments are sufficient to cover the additional costs of feed. In this study it has been found that milk has advanced from as low as 87 cents per hundred pounds to as high as \$4.40 (including subsidy) per hundred pounds during the ten-year period.

In a study of feed costs during the past ten years the Committee found that dairy feed (16 percent protein) has advanced from as low as \$1.50 per hundred pounds to as high as \$3.15 per hundred pounds. Since the average dairyman feeds one pound of grain to every 3 1/2 pounds of milk produced, it would appear that the dairy feed payments adequately cover the additional feed costs when grain rations are considered alone. Just what effect the shortage of hay will have on production costs will be determined if and when farmers are required to make purchases of hay later in the winter. Up to this time no considerable amount of hay has been shipped into Pennsylvania to meet this emergency.

The ten-year study of milk prices was made from records compiled from reports of nine different handlers of milk in the New York and Philadelphia Milk Sheds. The summer production prices range from \$3.04 per hundred pounds to \$3.60 per hundred pounds, exclusive of the government dairy feed payments applicable to summer production. The fall production records will show a higher payment to farmers when the records for the balance of the year are finally compiled.

VICTORY PARADE

ARMY — NAVY — MARINES — WAVES — WACS — SPARS

Staff Sergeant Aaron W. Zimmerman, Collegeville, son-in-law of Mrs Pearl Schonberger, has been assigned an APO address out of New York City. He is with an infantry unit.

Technical Sergeant Donald R. McCann, Collegeville, has been assigned a new address on the West coast. He should now be addressed at SS46, Group 46, U. S. Marine Corps Air Station, El Toro, Santa Ana, California. McCann is the veteran of early fighting in the South Pacific, including Guadalcanal, with the air arm of the Marines. He has been in the states for

some time and is now apparently awaiting another overseas assignment.

Harold A. Gennaria, Yerkes, is now enjoying a leave at the home of his parents, Mr and Mrs Henry Gennaria. The Yerkes man was attached to a ship about which the general public has had little knowledge — a rocket ship. He took part in the Italian and Normandy invasions in Europe.

The rocket ship is a medium sized vessel with one turret aft and on the forward deck a series of racks to accommodate the rockets. The rockets are set off by an electrical

impulse from the turret toward the rear of the ship. Heat generated by the jet propulsion of the rockets is so intense that members of the crew go below during the actual firing. Water is automatically swept across the deck of the vessel yet the heat blisters the paint. The craft carries only small guns for protection and must withdraw quickly after laying a barrage of its rockets against the coast. Gennaria, who has a brother, Harvey, with the Navy in the Pacific, will return for reassignment to Norfolk, Virginia, late next week.

Harold Love, Jr., son of Mr and Mrs Harold Love, E. Mt. Kirk Avenue, Eagleville, and husband of the former Miss Thelma Bobb, Worcester, has been promoted to Chief Petty Officer in the Merchant Marines.

Army Releases Pacific Mail

Families of soldiers engaged in operations in the Philippines will soon be receiving batches of mail that have been delayed for security reasons during the period preceding the invasion of these islands. Some 400,000 letters and a large number of parcels were impounded. This mail originated with units now engaged in American Army operations in the Philippines. Some of the letters date as far back as last July.

Robert S. Wayland A/S, son of Mr and Mrs Ernest Wayland, of Evansburg, may now be addressed at Co. 113, Unit C7, USNTS, Sampson, N. Y.

Samuel H. French, seaman first class, son of Mr and Mrs J. Hansell French, Collegeville R. D. 1, is now with the Coast Guard somewhere in the Pacific. His new address, received this week, is in care of the Postmaster at San Francisco, California.

Private Jack C. Miller, Collegeville, is now located at Fort Lewis, Washington, where he may be addressed at Co. B., 145 MTB. Jack is with a medical unit. He attended Pennsylvania College of Optometry before his induction into the Army.

Robert A. Landes visited his mother and father, Mr and Mrs W. R. Landes, over the weekend. He reported for a new assignment this week after leaving his home here on Sunday. Landes had been stationed in Florida.

Michael Baker, with the U. S. Coast Guard, visited his family here last week. Baker saw service in that branch before the war and returned to this work after war was declared, seeing a great deal of action in the Atlantic.

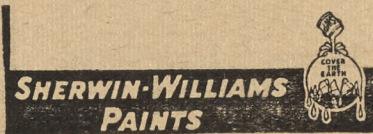

Private Lee W. Brooks, Fairview Village, has received his medical discharge from the Army.

HELP WANTED. Industrious, dependable servant to do housework for large family. Must help with washing, ironing, cleaning, cooking, etc. Also expected to entertain family in evenings. No time off. Wages about 14 cents a day.

OBVIOUSLY, the only servant who will do so much for so little these days is electricity.

We're glad that electricity is able to work around the clock in war plants and still stay on the job in your home. We're proud that you pay low pre-war wages for its services!

That's news in wartime. It's possible only because of sound business management—and because your friends and neighbors in this company know their business.

URSINUS FOOTBALL

(Continued from page 1)
ning of little "Tex" Phillips, F & M made its most serious threat in the closing minutes of play. They advanced as far as the Ursinus 20, but here the Bears took over when Wickerham intercepted a forward pass and returned it to his own 25. Ursinus then lost the ball on downs. However, there was time for only one more play, a pass play which Ursinus stopped on the 15 as the game ended.

Toth Plays Brilliant Game
Wilbur Toth, civilian freshman, who took over for the injured Schellhase, played a brilliant game at halfback making repeated gains and showing plenty of drive. Carlin was a tower of strength on the forward wall repeatedly breaking up F & M thrusts through the line. Ursinus made 10 first downs to 9 for the visitors.

An outstanding feature of the game was that the eleven Ursinus men played the full sixty minutes with no substitutions.

The Bears next game is a return affair with Swarthmore here on Nov. 25. Ursinus trimmed the Garnet eleven 13-7 in the opening game of the season at Swarthmore.

Lowest ceiling prices for dressed birds was 49 cents for old turkeys.

Growers in this area all said that the supply is year under the demand for Thanksgiving Day fowl with more hope held for a plentiful supply for the Christmas season.

THE DEATH ROLL

(Continued from page 1)
Jesse R. Evans
Jesse R. Evans, 61, prominent Pottstown attorney, died of a heart attack on Friday evening shortly after addressing a meeting at the Armistice eve dinner in the Pottstown Eagles Home. He had been recuperating from a seige of pneumonia and had gone to the dinner against the advice of his physician. Mr. Evans was a prominent civic leader and had served as Burgess of Pottstown from 1934 to 1942. He had been a member of the county bar since 1906.

He is survived by his wife and three daughters, Mrs. Howard Buhman, formerly on the faculty of the Schwenksville High School; Mrs. Malcolm Spencer, Chicago; and Mrs. Bernard Peterson, of Indianapolis, Ind.

Funeral services were held on Wednesday afternoon from his home at Prospect Street and Franklin, Pottstown.

VICTORY PARADE

The Independent is publishing in installments this detailed story written by Pfc Kenneth Scheffey, of Limerick, about his capture and escape from the Germans in the fighting in Northern Italy. The fifth installment appears below.

Dear Mother and Dad,

For about three hours, the whole town was being shot up. How many were killed I couldn't say, but it was reported that one hundred fifty civilians and about fifty Allied soldiers were slaughtered during that time. I do know some of our boys were killed but as for the number, I don't believe anyone could truthfully say how many men died there. All this was done because the Germans couldn't retreat through this town without getting a few men picked off by the patrols which I mentioned before. When the shooting stopped, the town was as quiet as a graveyard. We stood there in the building wondering what to do.

By this time it was mid-afternoon so we waited until dark and then went to a cave some distance away. There were a lot of our other men there and also a German that someone had captured. I believe he was from Poland and didn't have any desire to escape and go back to the German Army.

At any rate, we stayed in this cave all night and the next morning decided it was best to try to get back to our lines.

We started out in two's and three's for the lines but it was harder than we expected. After three of us had traveled about a mile through grain fields and woods we ran into such heavy machine gun fire and tank fire that we turned around and headed back toward town. We knew the fire was coming from our own guns so didn't mind ducking so much.

We reached the outskirts of town and hid under the brush on the side of a steep hill. There was a path on top of the hill that the enemy was retreating along. How we never ran into each other I'll never know.

It was about noon when we first got on this bank so we stayed there until dark.

It was a little before dark on that same day that I counted one hundred ten Jerries pass not more than fifty yards from we three. After I counted that many I stopped. There must have been at least five hundred.

Someone else must have seen them also for there was a terrific shell barrage thrown right in on them and you could hear them yelling for a half hour later.

When it was quite dark we started to look for food. The first place we went to was the cave that we had slept in the night before. However, much to our surprise we found it occupied by two Germans. Talk about moving we certainly did it and quick.

That same night we were standing on a path wondering where to go when we heard someone coming our way. We stepped along side a building just off the path and waited. In a few seconds two men came toward us. When they got closer I saw they were Jerries. They passed about two feet from us but must have thought we were Italians for they didn't say or do a thing.

After that we decided it wasn't safe to be out so we went back to the hillside and once more crawled under the brush. We slept there all night. When we awoke the next morning things were very quiet in the town. We sat there on the bank just waiting.

About nine o'clock we saw a tank come up the road. It looked like an Allied tank but we weren't sure so we just sat there. About a half hour later we heard more tanks but couldn't see them. However, when the people started shouting we were reasonably sure that they were ours, yet common sense told us to wait.

The tanks stopped in town but started out in a few minutes. When we actually saw them you couldn't imagine how glad we were for they were good old U.S. Army tanks. After we saw them we felt safe but just sat there on that bank for about two hours just watching our tanks and equipment rolling up the road hot on the Jerries' trail.

RAMBLING AT RANDOM

(Continued from page 1)
the flies. They became so aggravating that the "peace advocates" almost came to the point of declaring war on them. Everybody enjoyed a good laugh when Postmaster Scheuren suddenly interrupted his speech to acknowledge a persistent wave of greeting from Walter Bloomer in the rear of the room—which brought from Bloomer a prompt denial that he had waved any greeting, explaining that he was merely shooting the flies away from his face.

The hunting story of the week involves a porcupine and a big toe that was stubbed out of joint. A local hunting party consisting of A. H. Francis, R. E. Miller, Jay Hartung, Joel Francis, Horace Godshall and Dr. Robert C. Miller spent Thursday, Friday and Saturday morning hunting grouse near Green Town, Pike County. Friday evening the men decided to go to town in the evening and as they were driving along a back road they saw what apparently was a raccoon cross the road ahead of the car.

Stopping the car the "youngsters" of the party Joel, Horace and Bob jumped out and ran after the animal. First to catch up to the animal was Joel—and he administered a hefty kick; but just then the animal moved aside and instead of striking the animal he struck a big rock—painfully dislocating his big toe. By the way, the animal turned out to be an innocent porcupine; and fortunately, the three would-be "kickers" stopped before they got any quills in their shins.

Propaganda! Do you watch the development of our propaganda? In a democracy propaganda is indispensable in the formation of public opinion. Like children, so the public must have the right thought put into their minds at the right time. Any successful administration must be one jump ahead of the people—must direct public opinion.

For instance, could it be that the V-2 robot is being used to crystallize public opinion in favor of the World Court (in plain words scare us into it) before we start asking too many questions about the details and what took place at Dumbarton Oaks, etc.?

Surely our Army engineers who have been experimenting with robots for years and are using many types of robots now, would use the V-2 type, too, if it was practical.

Then take the Pearl Harbor "hoax"—the masterpiece of propaganda of all time. We still don't know what really happened at Pearl Harbor; but we do know that an apathetic America was aroused overnight into a fighting mood—and at the same time Japan was put down at home and abroad as the aggressor.

At present the Stillwell-Chiang situation in which Chiang is not being held up in too favorable a light, bears some thought. Why was Chiang suddenly turned from an angel into a devil overnight? Could it be that someone was pulling the wool over our eyes before, or is somebody pulling it over now? We're many of the OPA rationing regulations and Civilian Defense measures designed for disciplinary and propaganda purposes rather than the real McCoy? We don't know, we are asking you?

Sir Harry Lauder confesses that the smartest answer to the stupidest question he ever asked was delivered to him at Butte, Montana, by a Negro cab driver.

On his visit to the city, Lauder made the trip from the railroad station to the town and return in the Jehu's dilapidated buggy. The town was about a mile from the station, and on the return trip the famous Scot inquired irritably why they had built the station so far away.

"I don't jes know," replied the old Negro, "unless it am to have de depot near de railroad." — Wall Street Journal.
