Re: Documents on Dowsing Rods and Pendula

J. Huber Publishing, Diessen, Munich

Ref: Telephone consultation with SS-Hauptsturmführer Dr. Kommanz

Attachments: 14 documents

The attached documents were recently seized from J. Huber Publishing in Diessen vor Munich as part of the sequestration of occult literature.

The Reich Association for Dowsing has appealed to the Reichsführer-SS with the request for the release of the books.

As the suspension of the seizure should be decided upon and it concerns a deadline based on the model of the Reichsführer-SS, it is asked that a position statement on the sent documents be given the highest priority.

On behalf of

SS-Hauptsturmführer
