

Munich-Pasing 7/22/41.

Department: Applied Geology

Prof. Wimmer

Munich-Pasing Kirchen St. 11/1

To the

Curator

Of the Research and Teaching Association "The Ahnenerbe"

For the second half of August I had planned to undertake the technical dowsing studies on Hohenhewen in Hegau as per the wishes of the Reichführer and following the guidelines given to me. However, in light of the current situation of dowsing, it does not seem to me opportune, although my technical dowsing activity has not had limitations imposed on it at all. However, my opinion, perhaps influenced by internal inhibitions, should not be the deciding factor here but rather I follow your order or that of the Reichführer. I therefore ask for direction in this matter.

Heil Hitler!

The Department Head:

Jos. Wimmer.

Professor.

Original, Please return

To SS-Sturmbannführer Dr. Brandt

Personal Staff RFSS

Berlin

With the request to be informed if there are fundamental concerns against the execution of the trip by Wimmer requested by the Reichsführer-SS. I believe we can easily let Wimmer travel.
