Ursinus Hires Seven New Faculty Members for Term

By TED BURDUMY

Ursinus College has long had a tradition of hiring new faculty members each year. In this year's additions are an indication of that trend. First of all, Dr. Robert Lewis, who has been a member of the faculty recently was working for the Administration and has just been received in this year's Outstanding Young Graduate Student Award.

While studying at the University of Notre Dame he was elected the University Chapter of Phi Delta Kappa, and was a member of the Honor Society of Phi Beta Kappa.

By Charles T. Sullivan, active in psychological research and consulting since 1967, was named assistant professor of mathematics at Ursinus.

Dr. Sullivan received his doctorate this year at New York University after conducting psychiatric research at the Heart and Blood Research Center, Flemington, New Jersey. His appointment brings the field-growing psychology department at Ursinus to four full-time faculty members for the first time, each holding a doctorate.

Dr. Sullivan is a native of Pleasant Cowan, Bucks County.

Theodore A. Xaras, who taught at the Philadelphia College of Art for the past three years, was named instructor of art.

Mr. Xaras holds a master's degree in painting, obtained in Tyler School of Art, Temple University, and a bachelor's degree in painting, obtained from Philadelphia College of Art.

He won first place in painting at the Franklin Institute annual art boardwalk exhibit last August, and the first prize painting competition from Philadelphia College of Art, he won the outstanding Achievement Award presented to the highest grade point average during four years of study.

He resides in Upper Darby.

Mrs. Clausen lives in Philadelphia.

Dr. Peter F. Petersen, who for the past year and a half was an instructor at the University of Delaware and is now assistant professor of English.

Dr. Petersen, who resides in Newark, Del., earned his doctoral degree at the University of Delaware, in May, 1972. He holds his master's degree at Moorland (Minn.) State College, and his bachelor's degree at Lake Forest College.

While studying at the University of Delaware he was elected the University Chapter of Phi Delta Kappa, and was a member of the Honor Society of Phi Beta Kappa.

By David Ochocki

The first meeting of the U.S.G.A. was held on Tuesday, September 25. Many freshmen (and some upperclassmen) are probably wondering what a U.S.G.A. is. Since you go on to another article in this newspaper, I will explain to you why this organization is necessary and important.

The U.S.G.A. stands for Ursinus Student Government Association. Every student at Ursinus is automatically a member of the U.S.G.A. (whether you like it or not). According to its Constitution, the consti­ tution the U.S.G.A. is concerned with the rights and interests of all students, and is the medium by which students' complaints and suggestions can be brought to the administration.

So that this can be done in an orderly fashion, an executive council is elected (or coronated, depending on your perspective) and is empowered to make decisions representative of the student body. The U.S.G.A. council consists of six officers and eight representatives, one male and one female from each class. Each class pres­ ident also is a member.

Now that you have a basic idea of what the U.S.G.A. is, let's move on to what is supposed to happen at these meetings. Meetings are held twice a week, every Monday and Thursday evening, and any interested student may attend. These meetings are open to any one. Let me repeat. U.S.G.A. meetings are open to anyone.

This is your chance to speak up about the things that you think are important. It is the job of the U.S.G.A. council to find out what the problems are, then turn them into constructive action. They are the people who determine what will be attacked first, and design the solutions which will be worked on.

When the voting is complete, the student members of the council will present the results to the U.S.G.A. council for their consideration. The results will be announced to the student body at the next meeting, and the student body will have a chance to discuss the results at the next meeting.

If you have a problem which you feel is important enough to be brought up at a U.S.G.A. meeting, be sure to bring it up at the meeting. If you don't, somebody else will, and probably not in the way you would have liked it.
President Pettit's Letter: Is It Bull - - - ?

President Pettit's letter concerning open dorms (which was printed in last week's Weekly) can be viewed two ways; as a piece of meaningless rhetoric disguising the fact that he had no reason at all for denying our request for more open dorms or, to speak, at face value. If he had accepted the first explanation then we must conclude our administrators are a group of mindless idiots who are more interested in cheap shotting the students than in administering structures we have had. The knowledge gained will be only a s beneficent as the students and professors make it.

With the arrival of new faces on campus, among them this year is Dr. Peter Perreten, who has been appointed assistant professor of English by President William E. Pettit. Dr. Perreten is originally from Alexandria, Minnesota, where he received his bachelor's degree at Moorhead State College. He then continued his education, where he earned his master's degree. He studied at the University of Delaware, where he was also an instructor at Widener University.

Dr. Perreten has seen and liked our campus several times before his new appointment. He met a few of the students, who told him about the highest reasons for wanting to come to Ursinus was his desire to teach here. The second reason, so different from the large university with which he was previously connected. He felt a distinct curiosity to investigate the different type of education and administration. Dr. Perreten suggests that students are the people more interested in their work because their competition for excellence will result in enhancing their status at a large university.

Dr. Perreten is a graduate of the University of Minnesota. Dr. Perreten concentrated most of his elective studies in the areas of English and philosophy. He discovered his love for literature, languages, music, and generally, western civilization. Since English, itself, encompasses so many areas and cultures he decided to make it his major. During his undergraduate studies he was a member of Phi Beta Kappa for eighteen months, and he hopes to teach in this specialization later in his career.

Dr. Perreten stresses the importance of the love of literature and believes that it is important to be fully appreciated. If one is willing to work for it, the benefits are great. In addition, he feels, should be widely verced in all other areas, since literature may deal with any of a wide variety of topics. To non-English majors, English courses, such as his, are often required to complete a requirement. Dr. Perreten has been my home for four years and that I'll never regret. I want Ursinus to stay Ursinus; but I am also for change. Two things are not incompatible. I'm convinced we can liberalize our regulations without altering the principles on which Ursinus was founded and for which we are all fighting. I propose to prove to the Board through responsible actions not only by attacking the Administrators but also by changing the structure of our dorm. But to do this successfully we must be of one mind. We must all shoulder this responsibility equally and diligently. Because if we can do this, we must succeed!
SUMMER SCHOOL IN REVIEW
Japanese-American Interaction Encouraged

By ELSIE VAN WAGONER

Ursinus was privileged to have fifteen Japanese students on campus during the last five weeks of the summer. The thirteen students and two leaders from Tohoku Gakuin University in Sendai, Japan arrived on campus on July 11. They were involved in a week-long orientation to Ursinus, the Collegeville community and to the United States.

Panel discussions with the Ursinus faculty, a Collegeville community night where a performance of Japanese song and dance was presented, and weekend trips to visit Tamaqua, the coal regions, and the community were some of the scheduled events. The students spent most of their time working.

When the Japanese students arrived in the United States on July 11, they were surprised that each person they met seemed very nice. In Japan a homogenous atmosphere exists. The visitors were very impressed with the flags lining the airport; they felt that these flags really gave the campus an international appearance.

Although this was each of the students’ first trip to the United States, each felt very much at home in New York City because of the metropolis New York reminded them of Tokyo. The Japanese were very impressed with the large number of my people in the Japanese community. The metropolitan area was a very good way to start their trip. They were able to see fireflies in the woods.

RITSU OKAWA

Japanese students surprised audience by singing the college Alma Mater at the closing night ceremonies.

Christian Fellowship Plans Busy Fall

By WENDY BARNES

The Ursinus College Christian Fellowship held meetings every Wednesday at 7:00 o’clock in Bomar Library. The group continued the theme “You and me in Christ.” They sang and shared some of the times with them. At the meetings they were able to meet people and talk about this type of singing and the impact of Christ in their lives. The group continues to meet on Wednesday nights, and the next day the Japanese students were surprised.

It’s a shame that more Americans weren’t there. The Japanese students wanted to have American roommates and act independently rather than be herded by a group. They wanted us to talk to them all the time so they could tell us about their stay. All of the Japanese people were nice. I had hoped to return to Ursinus for two years, but the Americans would be responsible for plans for the Japanese group. They wanted us to talk to them all the time so they could tell us about their stay. All of the Japanese people were nice. I had hoped to return to Ursinus for two years, but the Americans would be responsible for plans for the Japanese group. They wanted us to talk to them all the time so they could tell us about their stay. All of the Japanese people were nice. Next time you see someone polluting, **point it out**.

It's a burning dump. It's a smoking car. It's litter in our parks.

You know what pollution is. But not everyone does.

So the next time you see pollution, don't keep your eye to eye.

Write a letter. Make a call. Point it out to someone who can do something about it.

**People start pollution. People can stop it.**

**URSINUS BOOTERS 2-1**

**By GARY GRIFFITH**

The Ursinus College soccer team opened its 1973 season with a well-earned victory over the Eastern Eagles. The score was 2-1. The Bears opened the scoring early in the first half as Tom Ruth booted a goal from twelve yards out. Minutes later Ruth scored a gain to give the Bears a 2-goal lead. Hal Byer and John Martin played excellent in goal for the Bears. The key to the Ursinus victory was the excellent defensive play of the halfbacks, Jeff Miller, Jim Snyder, and Nate Dupre and the fullbacks Dave Atlas, Bill Weis, and Phil Goodman. Excellent play was also contributed by Bobby Lay, Joe Sager, and Fred Brown.

The Bears did not fare as well in their second contest. Scranton triumphed over Ursinus 6-1. Bobby Lay, an outstanding hustler, scored the only goal for the Bears. John Martin, the Bears goalie, contributed a maximum effort and made many brilliant saves.

On Saturday, October 6th, the Bears defeated Drexel 1-0. Drexel, who went on to the NCAA quarter-finals. Martin was certainly the major contributor to the Bears' success. The Bears defeated Drexel 1-0, a goal scored early in the second half of the game. The Bears did not fare as well in their second contest. Scranton triumphed over Ursinus 6-1. Bobby Lay, an outstanding hustler, scored the only goal for the Bears. John Martin, the Bears goalie, contributed a maximum effort and made many brilliant saves.
