First SFARC Meeting Yields Suggestions For Parking, Wismer

By JEANNE CRANDALL

Last week the Student Faculty Administration Relations Committee held its first meeting of the year. Members present included Timothy Clemens, Kathy Cope, Louis DeCatur, David Freedberg, Cindy Martin, Elwood Pauly, G. Sieber Painter, and Richard Richter. The meeting was held in the conference room of the Student Union.

The first order of business was the election of new officers. Following the rule stating that the chairman must be a student, the committee unanimously elected Tim Clemens to fill that post. Richard Richter was elected to the office of secretary.

The topic of discussion was the abatement of the Russian department, Dave Friedenberg observed that several students were curious about the decision not to retain Dr. Joseph Caffrey. Mr. Richter pointed out that the enrollment for Russian was minimal and did not warrant employing a full-time professor. It was generally agreed by the committee that, with the rising quality of available teaching personnel, Ursinus may look into hiring faculty qualified to teach in more than one field.

The hangover issue of open dorms was brought up by Tim Clemens. Discussion was stimulated until reaching the point where it was decided that members of the faculty were received.

Mr. Richter suggested that SFARC go on record as objecting to the appearance of chin and silverware from the dining hall. He observed that the dining hall is not rewarding any china because of a nationwide shortage. He also suggested conducting a campus wide search for the missing plates, cups, and silverware; there were one hundred fifty missing.

The subject of signs on windows of the campus was also discussed. In a letter sent to many campus organizations, Dean Harris pointed out that posters on windows of the campus were unsightly. Mr. Richter suggested that students should realize any posters put on glass doors would be removed in the near future.

The subject of parking was debated. Taking into consideration the hopes of a few students who have complicated parking in the past, it was suggested that parking fines be reduced from one, five, and twenty-five dollars to one, five, and ten dollars. The observation was made that it would be harder to keep order in parking, fines being reduced from one, five, and twenty-five dollars to one, five, and ten dollars. That the parking regulations at Ursinus were in excess was noted.

On a lighter note, Dr. Cope mentioned that the clocks in Bomberger and elsewhere have been running for half an hour, stopping, and then beginning again a few minutes before the next hour. He observed that the institution has been going on for some time, and questioned whether anything was being done about it. David Holモデn, commented that "due to finances, there were few other ways to cut to the run half the time," at which point the meeting adjourned.

The committee of the SFARC is open to the student body. Any persons having questions, or just curiously, are invited to attend the next meeting on Wednesday of every month in the Student Union.

All That Shivers Is Not Cold

In the past few weeks there has been a considerable number of discussions on the weaknesses and failures of this country on the local, state, national and international levels. I consider there is much to fear about the many problems which the United States has been facing during the past year like the lack of trust in public officials, the lack of peace in the Middle East and in Southeast Asia, the lack of fuel and energy in the near future, the lack of stability in prices and so forth as is a common practice for many Americans.

Instead of deprecating those things which are not running smoothly, I would like to take this opportunity to give my thanks for all the blessings in life which I am very privileged to have. To begin with, I am very thankful for this upcoming Thanksgiving vacation. It is a chance to return to the warmth of home, family, and friends. I will also have a chance to unwind and recuperate from five weeks of student teaching.

My first offering of thanksgiving by no means implies that I dislike Ursinus on student teaching. On the contrary, I feel very fortunate to have had the opportunity to spend four years on the green swarmed Ursinus campus. During this time I have had a chance to learn far more than textbook knowledge, and also to come to understand human nature and life a little better.

On a larger scale, I am proud to be a citizen of the United States. In my estimation, the official government documents still guard the individual's right to "life, liberty, and the pursuit of happiness." I am glad to know that the individual is still present in the United States now than when our founding fathers wrote such statements, it is natural that our free doms still guard the individual's right to "life, liberty, and the pursuit of happiness."" This is such a wonderful feeling, and it makes me feel that I can be a better person.

There are some changes which will take place, but these are mostly long range at the moment. Many of these changes will work to be of help to give students a chance instead of just a chance to take. I feel that the dining hall would someday go cafeteria style in order to be more unique and well balanced for that type of system. Family style traditions will still prevail for a long time.

The final blessing that I will share is my primary reason for giving thanks. I am glad to be alive and well while being a resident on earth and feeling my Creator working in my life. God has given me a chance to live life and to live it so abundantly through the sacrifice of His Son, Jesus Christ, for me. While it may be very cold both outdoors and indoors with the snow and the cold, there is never a feeling of the warmth of the earth and of the sun shining bright and that the earth's atmosphere feels warmer.

Tolstoy's WAR AND PEACE To Be Shown On PBS Starting Next Tuesday

BY CLARENCE BROWN
Professor of Comparative Literature
Princeton University

Special to the Ursinus Weekly

The reputation of "WAR AND PEACE" precursored it everywhere and is a fait accompli literary folklore. It is everyone's standard for the unemotional long novel, and it was natural for a New York radio station to make public itself during a fund-raising drive some time ago by broadcasting non-stop, the entire text of Tolstoy's masterpiece. It seems strange that alongside the never uncomfortable reputation there should exist another—that of being the greatest novel in the world. I must confess to the helplessness of betrays that every reader feels.

Tolstoy's Novel

Calling them, as I just did, "stereotypes on Tolstoy's stage" points to a paradox that arises from the always fruitful comparison with Dostoevsky. Dostoevsky's novels are great tragic dramas not only in their conception and import but in the quite literal stage technique that he employed for the construction of practically every scene. His novels are performed, while those of Tolstoy are most emphatically told. And yet, such is the graphic power of Tolstoy's style that it is his characters, not those of Dostoevsky, whom we remember as the heroes of the scenes, vision. His prose does not tense the audience like the role of Kutuzov, the stoically patient old architect of Russia's theories, nor does Napoleon, who scarcely need other directions than those Tolstoy himself supplies at the moment when he must lower his ponderous body, heavy with age and wearyness, onto his knees before the holy lips to pray for victory in the coming battle. Tolstoy omits no meaningful gesture, but the moment would be dispensed with. But it cannot be omitted from even the slightest reading of the novel. What is true in the book. Besides, Tolstoy does not believe that art is about art; he has never thought to be his or his characters' art at all. Needless to say, because of its power and "WAR AND PEACE" does not lend itself to the dramatization and must necessarily be dispensed with. But it cannot be omitted from even the slightest reading of the novel. What is true in the book. Besides, Tolstoy does not believe that art is about art; he has never thought to be his or his characters' art at all. Needless to say, because of its power

Buddy Rich Strikes Out

BY TONY FERRIGNO

Let me say right at the top of this article, that contrary to pop­

ular belief, Buddy Rich is not the world's greatest drummer. There are a hundred or so, lesser-known drummers who can make Rich throw his sticks up into the air out of disgust and prove every one of those other drummers who can accomplish the same thing that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that these other drummers can accomplish. There is a simple fact that the

Buddy Rich is, though, is the most exciting drummer to­

era, musing on the existence of

the greatest novel in the world. I

deny it, and I do not believe that

other than the Rostovs, the

families in the world, the Rostovs,

and the other.

Papa, Mummy, Mary, and the other.

principal actors on Tolstoy's stage; they do not seem to be characters in a book at all, and are as free

The Rock that the Pilgrims discovered was nothing like the rock that was used as a setting for the Valley Forge Music Fair in Devon, Pa. This com­

ming Thanksgiving will be remembered for its excellent on location bit recording and concert group "Poco" plays a one night, one show engagement Friday November 27, 6 p.m. With several chart-busting albums on the Epic Label, "Poco" is gradually becoming one of the most sought after groups in the business. The Devon exit of Pa. 202 south, at all "Ticketron" outlets, major theatre ticket agencies in Philadelphia, Bag and Baggage in Wilming­

ton and the Majestic in Philadelphia, Straw­

bridge and Clothier in Plymouth Meeting and other locations throughout the tri-state area.

Todd Rundgren, former lead singer with "Nasus," plays a solo performance at the Valley Forge Music Fair on Friday night, November 25, for our show only at 3:30 p.m. are now on sale at the Valley Forge Music Fair office, just the Devon exit of Pa. 202 south, at all "Ticketron" outlets, major theatre ticket agencies in Philadelphia, Bag and Baggage in Wilming­
ton and the Majestic in Philadelphia, Straw­

bridge and Clothier in Plymouth Meeting and other locations throughout the tri-state area.
A Splendid Time Was Guaranteed For All

Mr. and Mrs. Lyverly and Mrs. Lucas are hard at work preparing to fertilize the hundred feet of the banana plant in the garden. They would not miss too much of the Faculty meeting in progress.

CAREER DAY

(Continued from Page 1, Col. 3)

Mr. Richter, an ice cream dipper, rushes to give the faculty team a victory.

PHILADELPHIA SOLOISTS

(Continued from Page 1, Col. 2)

Mr. Master's degree from Yale. He has played with the New York Chamber Orchestra, New York Baroque Ensemble, the Symphony of the Air, the American Symphony Orchestra, in addition to many T.V. and radio broadcasts, recordings, and seminars. He is a faculty of Sarah Lawrence College and the Mannes College of Music in New York. Barbara Hoffner, cellist, has played seven years with the Philharmonic group. She is a graduate of the famed Eastman school, and has appeared in recital and as an extra with many symphonies and is presently teaching at the Philadelphia Musical Academy. Lambert Orick, piano, a graduate from Curtis Institute of Music in New York, received his Master of Music degree from Temple University. He has performed with the Philadelphia Orchestra, the Pittsburgh Symphony and other major American orchestras. He is presently Professor of Piano and Resident Accompanist at Temple University.

This forum on the 27th is the third to last forum of this semester. Every full-time student is required to attend a minimum of two forums. A total of six seminars.

SEEDS AND ASHES

(Continued from Page 3, Col. 5)

There is a note which tells you that if you miss three more chances, you will be dropped from the course and given a grade of 'F'. The next note also says that it has returned for a dollar donation to the Ursinus treasury and can be returned. Does this mean that an Ursinus education is worth four hundred dollars?

THE ZODIAC

A Preview To Real Astrology

By ED KNOWLES

When one mentions astrology today he has to be careful and explain exactly what he means. The scientific establishment views astrology as the occult arts such as magic. Like any other science it has developed over years of experience and experimentation. It must be emphasized that any theory or philosophy of astrology is purely the opinion of the individual astrologer and is his personal interpretation of the facts (astrology is based on solid facts). As in any other science, theories and postulates are upheld only as long as they coincide with the facts; when an unexplained phenomenon occurs that is out of line with the accepted theories, the accepted theories are either discarded or modified to account for the facts. It is interesting to note how little the basic foundation of astrology has changed over hundreds of years.

What then, a newspaper column? Well, this column will not be concerned with the deceptive aspects of astrology that seem fascinating, but are actually mundane. It will concentrate on those areas of astrology that are directly observable and applicable to everyday living. Forecasts and predictions are always, but compatibility and personality sketches are of more lasting value and can merit more of a claim to accuracy in newspaper columns. A prediction that "you will meet a tall, dark stranger" doesn't seem as valuable as an insight as to how to handle the situation (a meaningful relationship) or friction.

What can just one private citizen do?

Ralph Nader

urges you to become

a Public Citizen

Dear Fellow Citizen:

Imagine that 25 or 30 years ago citizens concerned about the future quality of life in America had gotten together to do something about it. Suppose they had begun an effective citizen's campaign to make government agencies and industry management sensitive and responsive to the needs of the people. The real needs, of all the people. Think how much that was already wrong would have been corrected by now. Think how much that has gone wrong since then would never have been allowed to happen.

If the public had acted years ago, we would long ago have eliminated or minimized the insidious pockets of poverty in our land of plenty; the vile and violent contaminants that pollute our air and water; the ravaging of our land by insensitive corporate and government forces; the sickness, often lethal, chemicals, gases and dust in many of our factories, foundries and mines; the unrestrained power and expenditures of our military establishment; the inequities in taxation that takes 20% of workers' wages while many with enormous incomes pay little or nothing.

Our people would not be disenchanted and disillusioned. And the prevailing mood in America would not have turned from confidence and pride and hope to growing feelings of frustration and outrage and despair and rage.

What if we don't act now?

In another 50 years our population will have doubled. What if our rampant economic "growth" is allowed to continue indiscriminately—mindless of the public's hopes and indifferent to their problems? What if we continue to do nothing because we assume that others are taking care of these problems?

Who is taking care of them? It is clear that our institutions, public and private, are not really performing their regulatory functions. They tend not to control power democratically, but to concentrate it and to serve special interest groups at the expense of voiceless citizens.

Almost all the organized legal representation in our country is working to protect the interests of the powerful—lawyers, other professionals and students. If more valiant and dedicated people would work to accomplish public ends, it would help us.

Through Public Citizen, we ask concerned students to contribute $5 or more to help Public Citizen continue and expand the work that is already under way.

Let it not be said by a future, forlorn generation that we wasted and lost our great potential because our despair was so deep that we didn't act or try, because each of us thought that someone else was worrying about our problems.

Sincerely,

Ralph Nader

---

Who represents the citizen? Only ourselves. And that is why I urge you, as a public citizen—a citizen concerned about your community and your country— to support Public Citizen. If we do not speak up in the public interest now, we will allow the problems to multiply, life in America could be intolerable. Perhaps impossible.

Citizen Advocates-Citizen Supporters

A Cause for Optimism

We have seen how a few determined citizens can do great things to better their communities. What has been accomplished so far is not the work of one person but of more than 30 young men and women—lawyers, other professionals and students. If more valiant and dedicated people would work to accomplish public ends, it would help us.

Thousands of graduates of law, medical, science and engineering schools and other disciplines want to work long hours, at minimal wages in the public interest. They know that our society cannot solve its problems if all our most highly trained professionals work for private industry or government agencies.

If these selfless young people are willing to sacrifice private financial rewards to pioneer the future, other public spirited citizens will surely want to make it possible for them to.

Through Public Citizen, we ask concerned students to contribute $5.00 ($2.00 for those under 21); non-students are sending $10.00 or more to support a lean, hard-working group of these citizen-advocates.

Through published studies and documentation, they will help to sharpen public awareness of our problems. Public awareness leads to public action. Historically, the idealism and energy of students has been a potent force for change. We hope to provide a dynamic vehicle and clear goals for those hopeful qualities by organizing student supported public interest groups throughout the country to work for lasting change through an orderly, democratic system.

They will represent disadvantaged minority groups, before the various legal agencies of state and federal governments. They will seek to temper the actions of large corporations that have acquired power far out of proportion to their contributions to society.

In some important way, every major company touches on the lives of thousands of people—employees, consumers, retailers, taxpayers and whole communities. Shouldn't these people have a voice about policies that directly and adversely affect them? Must not a just legal system accord victims the ability to deter forces that tend to victimize them?

A way must be found to make a real impact on corporate boardrooms—and on government agencies that often serve as protectors, even service arms, of the industries they are supposed to regulate.

Bureaucrats cannot easily resist the overwhelming pressures of special interest lobbies in Washington and state capitals. But there can be a greater countervailing pressure—the determination of citizens lobbying for the public interest.

Once a year, as a Public Citizen supporter, you will receive a report on significant new citizen involvements that have been effective in achieving reform or relief at the local, state, or national level. Hopefully, you will apply them in the areas of your own commitment to action. Citizen-ship skills must be continually sharpened and used if we are to succeed in preventing or diminishing injustice.

Potentially, there are 200 million of us unable to work full-time for the public interest but with a full-time anxiety about it. Think how much more could be accomplished.

Please mail the coupon and your check for $5 or more to help Public Citizen continue and expand the work that is already under way.

Let it not be said by a future, forlorn generation that we wasted and lost our great potential because our despair was so deep that we didn't even try, or because each of us thought that someone else was worrying about our problems.

Sincerely,

Ralph Nader

KILT KLAD'S KOMMENT:

Ursinus Women Athletes Make Better Lovers

By HELEN LUDWIG and EVA MORGAN

What's their secret? Women athletes, or commonly called "jockettes," are one of the most frequent sights on the Ursinus campus. Since they are always in training and not in the classroom, it's not exactly the natural that they are labeled as better lovers. Recent studies have proved it to be so.

KICKER'S COMMENT:

Boys Stand 6-6-1

By GARY GRIFFITH and ROCCO CENTORE

In their last 5 MAC soccer games the Bears were dropped three (oh, bad shoes Bears!). The team's record now stands at 4 wins, 6 losses and 1 tie.

On October 25th, on their home field the Bears defeated the Widener Colonels (good game Boys!). The score was 4-1 Freshman "Griffey" Brady and Tom "Hook of the Bible" Ruth and Juniors Craig "Orie" Ooms and Bobby "B" Lay each registered goals for Mannings tough grizz. Excellent defensive effort by Bob "Bear's Atta Boy" and John Martin was aided by five deflected efforts by the "Rookies" "Wheels" "Beans" Atlas, and Zack Dudro.

In their next conference game the Bears lost to Swarthmore 2-0 Zip!! (Way to go Bears!). The Bears completely dominated the game and Swarthmore never seriously mounted an attack. "Griffey" Fred Proven and Biblical Tom tal- lied for the Bears in the first half and the second half of the game. But both goals were nullified by the refferee and the Bears 2-2-Haverford 0.

The Bears added two more goals to their tally for the second half, one by "Orie" and Teddie "Bear" Harvey. Excellent defensive effort was put forth by the Bears against the Weis, Duques, Atlas and "Sage". The Bears lost 2-3 on Saturday, November 6th, the Kevin Kalmbach competed for Ursinus scoring the first goal of the game! We will continue with the team losing only one cellent field position by the first of the fall season.

On October 14th, on their home field the Bears played F&M on Monday, November 14th.
