Banan Split Rated Big Success As News Spreads Across The Country

By TED BURDUMY

At two o'clock on Friday afternoon, the Women's Campus Council held a meeting in Pfalz Hall to discuss future plans for the Student Union.

The portrait is located in the Russell Library at Ursinus College.

The memory of Dr. Sturgis' strong religious beliefs is a symbol of his legacy.

The unveiling was accompanied by statements from several members of the faculty and administration, including Dr. Tedense, who called Dr. Sturgis a "pioneer in modern chemistry" at Ursinus College.

The chemistry reading room has been turned into a "dedication room" for the portrait.

The portrait represents Dr. Sturgis' strong religious beliefs and his dedication to the advancement of modern chemistry.

The unveiling was attended by students and faculty members, who were moved by the dedication and the significance of the portrait.

"New Sturgis Portrait Dedicated At Ceremony"

Philadelphia Soloists Will Play At Forum

By WHITNEY SKINNER

At 8:30 p.m. on Thursday, November 29, the Philadelphia Chamber Soloists will present a program of chamber music in the Forum at Ursinus College.

The program will feature a variety of contemporary composers, including Joseph Haydn, Ludwig van Beethoven, and Franz Schubert.

The soloists will be joined by the Ursinus College Symphony Orchestra, under the direction of Dr. Joseph Affe.

The performance will be followed by a reception in the Forum's Grand Hall.

First SFARC Meeting Yields Suggestions For Parking, Wismer

By CATHY MCCARTHY

Last Wednesday night, the Student Faculty Administrative Relations Committee held a meeting in the Forum to discuss parking issues on campus.

The committee recommended several solutions, including the creation of a parking permit system and the establishment of a special parking zone for faculty and staff.

The meeting was attended by approximately 50 students and faculty members, who were enthusiastic about the committee's recommendations.

The suggestions were then placed on tablets set up in a "L" shape. Each foot of the split cost twenty-five cents and the money will be put towards a new tennis court for the Union.

A wire service and the associated press picked up the story of the banana split and soon news of it spread across the country. Turnover of a hundred foot banana split. Only enough, the whole thing started as a joke.

Way back in September, members of the Union Committee were talking in our Web site for the coming year. It was at that time that Bob Lencel and Cynthia Fitzgerald jokingly suggested making the world's longest banana split. What was then a joke is now a very pleasant memory for a majority of students and faculty at Ursinus.

The huge banana split was cooked that on Wednesday, October 3, Ursinus received a room full of student majors and the entire student body was present.

The committee that ideally, with a few hundred foot record. But until such a time, Ursinus College maintains the only college around to have created and consumed the world's longest banana split.

"New Sturgis Portrait Dedicated At Ceremony"
in the past few weeks there has been a considerable amount of concentration on the weaknesses and failures of this country on the local, state, national and international levels. I consider this great deal of time expending on the many problems which the United States has been facing during the past year like the lack of trust in public officials, the lack of peace in the Middle East, the lack of fuel and energy in the near future, the lack of stability in prices and so forth as a common problem for many Americans.

Instead of deprecating those things which are not running smoothly, I would like to take this opportunity to give my thanks for all the blessings in life which I am very privileged to have. To begin with, I am very thankful for this upcoming Thanksgiving vacation. The one chance to return to the warm security of home, family, and friends. I also have a chance to unwind and recuperate from five weeks of student teaching.

My first offering of thanksgiving by no means implies that I dislike Ursinus on student teaching. On the contrary, I feel very fortunate to have had the opportunity to spend four years on the green swarmed Ursinus campus. During this time I have had a chance to learn far more than text books can, and also to come to understand human nature and life a little better.

On a larger scale, I am proud to be a citizen of the United States. In my estimation, the official government documents still guard the individual's right to life, liberty, and the pursuit of happiness. In this day and age, there is little evidence present in the United States now than when our founding fathers wrote such statements, it is natural that our freedom doms have diminished somewhat. They are inversely proportional to the size of the population.

The final blessing that I will share is my primary reason for giving thanks. I am glad to be alive and well while being a resident on earth and feeling my Creator working in my life. God has given me a chance to live and to live it so abundantly through the sacrifice of His Son, Jesus Christ, for me. While it may be very cold both outdoors and indoors with the freezing wind that is beating my house and me throughout the world, I have nothing to worry about. I have a real warmth and peace inside of myself that no external forces can ever remove. This is such a wonderful feeling, and I'll be glad to share the means of obtaining it with any one who is interested.

I have only listed a few major blessings for which I am thankful. I could fill up this entire newspaper (which is an unheard of journalism practice) with my words of praise and thanks.

I hope that each person will take some time in the very near future to reflect upon his life and the many positive aspects of his existence. If this is a habit to which you are unaccustomed, set aside some time from November 22 (if not sooner) to really meditate on life and happiness. For this is the only thing that I have only listed a few major blessings for which I am thankful. I could fill up this entire newspaper (which is an unheard of journalism practice) with my words of praise and thanks.

I hope that each person will take some time in the very near future to reflect upon his life and the many positive aspects of his existence. If this is a habit to which you are unaccustomed, set aside some time from November 22 (if not sooner) to really meditate on life and happiness. For this is the only thing that I have
The reputation of "WAR AND PEACE" precedes it everywhere, and is a part of polite literary folklore. In everyone's standard for the unattainable long novel, and it was natural for a New York radio station to make publicity for itself during a fund-raising drive some time ago by broadcasting "War and Peace," non-stop, the entire text of Tolstoy's masterpiece. It seems strange that altogether the most uncomfortable reputation there should exist around—that of being the greatest novel in the world. The novel must confess to the hideous necessity of subscribing to this with the Russians say, both hands, though I am aware of how profoundly Tolstoy applied the term "novel" to his work. A great hater Olympian note that ingly Tolstoy applied the term 'novel' to his work. A great hater of subscribing to this with as lore.

CAREER DAY (Continued from Page 1, Col. 3)

The English Career Day is being arranged by the English department with the assistance of Carol Simonides, Barbara Grieser and Janet Dunn. Women's Campus Council sponsored two very successful Career Days and last year's event to support the biology. Anyone with an interest in these English columns is invited to take part in this informative program.

PHILADELPHIA SOLOISTS (Continued from Page 1, Col. 2)

Mr. Nose's degree from Yale. He has played with the New York Chamber Orchestra, New York Baroque Ensemble, the Symphonies of the Air, the American Symphony Orchestra, in addition to many T.V. and radio broadcast, recordings. It is in the faculties of Sarah Lawrence College and the Mannes College of Music in New York, Barbara Hoffer, cellist, has played seven years with the Philadelphia Orchestra. She is a graduate of the famed Eastman school, she has appeared in recital and as soloist with many symphonies and is presently teaching at the Philadelphia Musical Academy. Lambert Orchis, piano, is a graduate from Curtis Institute of Music, received his Master of Music degree from Temple University. He has performed with the Philadelphia Orchestra, the Pittsburgh Symphony and other major American orchestras. He is presently Professor of Piano at Temple University.

This forum on the 27th is the third to last forum of this semester. Every full-time student is required to attend a minimum of two forums this semester, at a total of six semesters.

SEEDS AND ASHES (Continued from Page 3, Col. 5)

Column that wrote about Ursinus students and included their names.

A studying Weekly for the past fifty years we have decided that Ursinus is Ursinus, so the same by any name is called a rock-by-anonymously...

If you are falling at midnight at Ursinus you get a note which tells you that if you miss three more chances you will be dropped from the course and given a grade of 'F'. The note also say that in return for a ten dollar donation to the Ursinus treasury you can be reinstated. Does this sound like a real Ursinus education is worth four hundred dollars?

THE ZODIAC

A Preview To Real Astrology

Judge Jim Harbaugh sends his compliments to the chef for this delectable diversion and looks as if he could eat a couple additional feet.

The Science of Astrology

Milton Bornstein, an associate professor of psychology at Ursinus College, has long been interested in the subject of astrology and has conducted extensive research into the phenomenon. Bornstein believes that astrology can be used as a tool for understanding human behavior and predicting future events. He has published a number of articles and books on the subject, including "The Astrological Approach to Human Behavior" and "The Future is Now: Using Astrology to Make Better Decisions." Bornstein's research has been widely cited in both academic and popular publications, and he is considered one of the leading experts on the subject.

New course on astrology

A new course on astrology will be offered at Ursinus College this fall, and Bornstein will be teaching it. The course will cover a wide range of topics, from the history of astrology to the latest developments in the field. Students will learn about the different astrological traditions, including Western, Eastern, and Indian astrology, and will be introduced to the basic principles of astrology, including the zodiac signs, planets, and houses. The course will also cover more advanced topics, such as chart interpretation and predictive astrology.

The benefits of astrology

Bornstein believes that astrology can be a valuable tool for personal growth and self-understanding. He says that astrology can help people make better decisions, understand their motivations, and improve their relationships. "Astrology is like a map of the unconscious," he says. "It can help us navigate the emotional terrain of our lives." Bornstein also believes that astrology can be a useful tool for understanding the world around us, and that it can be used to promote peace and understanding. "Astrology is a way of seeing the world through the lens of the cosmos," he says. "It can help us see the connections between people and events, and to understand that we are all part of the same cosmic whole."
What can just one private citizen do?

Ralph Nader urges you to become a Public Citizen

Dear Fellow Citizen:

Imagine that 25 or 30 years ago citizens concerned about the future quality of life in America had gotten together to do something about it. Suppose they had begun an effective citizen's campaign to make government agencies and industry management sensitive and responsive to the needs of the people. The real needs, of all the people. Think how much that was already wrong would have been corrected by now. Think how much that has gone wrong since then would never have been allowed to happen.

If the public had acted years ago, we would long ago have eliminated or minimized the inexcusable pockets of poverty in our land of plenty; the vile and violent contaminants that pollute our air and water; the ravaging of our land by insensitive corporate and government forces; the sickening, often lethal, chemicals, gases and dust in many of our factories, foundries and mines; the unrestrained power and expenditures of our military establishment; the inequities in taxation that takes 20% of workers' wages while many with enormous incomes pay little or nothing.

Our people would not be disenchanted and disillusioned. And the prevailing mood in America would not have turned from confidence and pride and hope to rage and hopelessness. And the prevailing pressure would never have turned from confidence and pride and hope to rage and hopelessness. And the prevailing pressure would never have turned from confidence and pride and hope to rage and hopelessness.

What if we don't act now?

In another 30 years our population will have doubled. What if our rampant economic "growth" is allowed to continue indiscriminately—mindless of the public's hopes and indifferent to their problems? What if we continue to do nothing because we assume that others are taking care of these problems?

Who is taking care of them?

It is clear that our institutions, public and private, are not really performing their regulatory functions. They tend not to control power democratically, but to concentrate it and to serve special interest groups at the expense of voiceless citizens. Almost all the organized legal representation in our country is working to protect private interests and private wealth.

Who represents the citizen? Only ourselves. And that is why I urge you, as a public citizen—a citizen concerned about your community and your country—to support Public Citizen.

If we do not speak up in the public interest now, if we allow the problems to multiply, life in America could be intolerable. Perhaps impossible. Citizens' Campaign to make government agencies and industry management sensitive and responsive to the needs of the people. The real needs, of all the people. Think how much that was already wrong would have been corrected by now. Think how much that has gone wrong since then would never have been allowed to happen.

KILT KLADE'S COMMENT:  
Ursinus Women Athletes Make Better Lovers

By HELEN LUDWIG and EVA MORGAN

When one considers Ursinus, a Woman's College, or commonly called "girl's school," are one of the most frequented places for sports of even distant campus. Since they are always in the center of the action, we can expect them to be the most naturally nurtured athletes of equal all sports. During every season, Ursinus offers a variety of sports for women during every season.

KICKER'S KOMMION':

By GARY GRIFFITH and ROGER "Griffey"

In their last 5 MAC soccer games the Bears were worth droppin' three (oh, bad show Bears!). The team's record now stands at 4-4-1, six losses, one tie, and one win.

On October 25th, on their home field the Bears defeated Widener College (good game Bears!). The score was 4-1. Freshmen "Shuggie" Rears and Tom "Hook of the Bible" Ruth and Julianna Craig "Ocie" Oseanik and Bobby "Bill" Lay each registered scores for women at Ursinus. Since, nowadays, we are frequently stereotyped for women at Ursinus, and Bobby "Bill" Lay each registered scores

BEARS UPSET GROVE CITY

By GEORGE GEIST

On October 25th, Ursinus Bears football team came out of home hibernation by defeating the Wolverines of Grove City, 17-6. The Bears, who had previously been defeated in all three home encounters, relied upon a strong defensive effort (particularly in the front four and the linebackers) in order to stingy Grove City. Offensive attack and cause seven important turnovers.

Ursinus scored on its very first offensive series! Marching to the Bears 43 yard line with some strong running by John Sabatino and Bill Kelly and a beautifully executed 20 yard screen pass to Bill Komarnicki, the Bears displayed early offensive control. John Sabatino, playing in the final game of his collegiate career at Ursinus, scored the first six when he crashed the pylon for the Bears' first yardage and a SC score. Bruce Brumbaugh added the conversion.

Three plays after the evening kickoff, Bill White recovered a Wolverine fumble on the Grove City 43 yard line. Ursinus, granted excellent field position by the first of seven Grove City turnovers, however was unable to capitalize on the opportunity and the Bears scored.

Bears defeated with 112-1, adding onto their already impressive all game record. Next week the bear's success should continue with the team losing only one man, defensive co-capt. Tom Torchia. What counts is whether or not the Bears win or lose. Bill Komarnicki, Craig Oseanik, and John Sabatino and a beautifully executed 23 yard screen pass to Bill Komarnicki, the Bears displayed early offensive control. John Sabatino, playing in the final game of his collegiate career at Ursinus, scored the first six when he crashed the pylon for the Bears' first yardage and a SC score.
