The Swedish course at Ursinus introduced by Dr. Rice in 1965, has attracted attention throughout the world, which a non-Swede has taught Swedish to non-Swedes. According to the university, there is strong revulsion in the Swedish American ethnic area. The course is taught by Dr. Rice in his first year, and by others in the second year.

By MOLLY KEIM

Elect of officers for 1973-'74 was held Wednesday, April 20, by members of this year's class. The election, conducted by Editor-in-Chief, Patricia Massiwill, was announced by Jane Safarek Zabahat, Business Man-age-r.

The Spring '73 issue is expected to be released during the third week of May. The magazine will include 6 authors, 7 artists will be represented.

It would be a bit much to expect a government composed of simpletons, fools and charlatans to realize the utter moral madness of the bombing of Hanoi and Haiphong Harbor. The mere fact that Mr. Nixon has quite literally taken it upon himself to make decisions on our lives or on the lives of those high school and college-age individuals who are our future. I maintain that poor Mr. Nixon’s job is indeed too big for his paltry, self-seeking intellect. But a man who is incompetent and does not know it should be told, for he is a fool.

Jane was gracefully slipping a way at a cup of coffee and discussing how cars appeal to her mechanic.

The war must be stopped!

On Friday, April 21, a small group of Ursinus professors and students participated in a quiet strike, along with sixty-five other American colleges and universities, to call attention once again to the pointless, despicable acts of aggression committed by this despotic charlatan working not for world peace or even for the good of mankind, but for his own personal aggrandizement. That is real frustration; to have committed murders have been committed there?

Many how widowed, orphaned, crippled and starving have been left in a country now largely devastated by the bombing from either side.

The government of the United States and all for which it stands is completely and utterly wrong. Peace, brotherhood, freedom and tolerance are not unreasonable desires, and they are desires universal to all mankind. If it is only a government which keeps us from realizing them, then let that government be destroyed.

“Those were the days of simplicity”}

I've been transferring out of here ever since the first semester of my college experience as far as the Academic Council and the Bill of Rights went a couple of years ago, and as far as with the Department of Directors. Now that's a real key job. You can just walk on a lot of their black leather shoes and you know which one’s giving to say. They’re like little program-minded. That’s real frustration: that the family members have to go out. And it doesn’t help the students, because a lot of the faculty has to go through the faculty too.

Therefore, “I’ve got this great theory on how to get back to the college. They’re going to get on the ideas that have to go through the faculty too.”

Jane is graduating this year as an economics major and entering Villanova Law School in the fall. She confesses that ever since she came home four years ago, I went to be a P.E. major. Of course, I was told this is a waste of mental capacity, which since that day has hardly irradiated me. Any time I hear anyone talk about these P.E. jobs, I really upsets me.

Jane played basketball and other sports in high school, and her coach, whose abilities Jane respected, quite often knew what he was getting into; the job is indeed too big for his paltry, self-seeking intellect. But a man who is incompetent, and does not know it should be told, for he is a fool.

The Lacrosse team suffered its first loss of the season last Thurs­
day, when they were defeated by girls 9-5 on our own Effie Bray Memorial Field. Weather condi­tions were not used as an excuse for the loss that was just as cold and gray as the day. Prior to the previous game, terri­ble pastes were nowhere near the re­
